SSG DIGITAL ATTENDANCE

Digital Attendance (Mandatory)

1. It is mandatory to take the AM, PM and Assessment digital attendance for WSQ-funded courses.
2. The trainer/administrator displays the digital attendance QR code from the SSG portal.
3. Scan the QR code with your mobile phone camera and submit your attendance.
4. A minimum of 75% attendance is required to be eligible for assessment and funding.

YOUR TRAINER

About the Trainer

Dr. Alfred Ang

Principal Trainer
Tertiary Infotech Academy Pte. Ltd.

ROLE
Principal Trainer, Tertiary Infotech Academy Pte. Ltd.

CERTIFICATION / CREDENTIALS
20+ years of training and industry experience.

DELIVERS
WSQ courses on PowerPoint, data visualisation, generative AI and workplace productivity.

FOUNDER
Founder and lead instructor at Tertiary Infotech / Tertiary Courses.

© 2026 Tertiary Infotech Academy Pte Ltd

ICE-BREAKER

Let's Know Each Other

1. Your name and organisation / role.

2. Your experience with PowerPoint, charts or infographics (if any).

3. One visual communication habit you want to improve during this course.

© 2026 Tertiary Infotech Academy Pte Ltd

HOUSEKEEPING

Ground Rules

1. Set your mobile phone to silent mode.
2. Actively participate — no question is too small.
3. Respect each other's views: agree to disagree.
4. One conversation at a time.
5. Be punctual; return from breaks on time.
6. 75% attendance is required for funding eligibility.

3 TOPICS

Course Outline

1

LU1 — AI-Assisted Infographic Planning and Data Insights

Purpose · Types · Audience · Metrics · Planning · Insight extraction

2

LU2 — Creating PowerPoint Infographics with AI

Slide size · Grid · Shapes · Icons · Type · Colour · SmartArt · Charts · AI

3

LU3 — Evaluating and Presenting Infographics for Business Impact

Story · Context · Simplicity · Coaching · Budget · Effectiveness · Improvement

© 2026 Tertiary Infotech Academy Pte Ltd

SCHEDULE

Lesson Plan — 1 Day

Morning

- Morning — Plan and interpret

– 9:30am admin, outcomes and assessment briefing

– LU1: statistical infographic interpretation and comparison prompt briefing (Activities 1–2)

– LU2 begins: Microsoft 365 Copilot infographic creation and PowerPoint refinement

Afternoon & Assessment

- Afternoon — Create, review and assess

– LU2: Copilot timeline, process, comparison and hierarchy infographics with PowerPoint refinement (Activities 3–6)

– LU3: stakeholder mind map, peer coaching and resource scorecard (Activities 7–8)

– Assessment: WA-SAQ 30 min + PP 30 min, 5:30–6:30pm

- Timing

– 9:30am–6:30pm · 60-minute lunch · 10-minute breaks

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL ACHIEVE

Learning Outcomes

1

LO1

Draw insights from infographics to make data-driven decisions.

2

LO2

Leverage PowerPoint infographics for articulating data insights to stakeholders.

3

LO3

Assess the effectiveness of PowerPoint infographics based on allocated resources in accordance with business goals.

© 2026 Tertiary Infotech Academy Pte Ltd

Briefing for Assessment

1. Place phones and other materials under the table or on the floor.
2. No photos or recording of assessment scripts.
3. No discussion during the assessment.
4. Use a black/blue pen for hard-copy assessments.
5. No liquid paper / correction tape.
6. Scripts are collected when time is up.

© 2026 Tertiary Infotech Academy Pte Ltd

FINAL ASSESSMENT

Assessment

1. Written Assessment (WA-SAQ) — nine open-ended questions, 30 minutes, open book.
2. Practical Performance (PP) — three progressive tasks, 30 minutes, open book.
3. Format: Open Book — slides, Learner Guide and approved materials only.
4. A minimum of 75% attendance is required. Learners must be assessed as Competent and complete the required digital attendance and TRAQOM steps.
5. An appeal process is available if required.

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM survey — scan the QR code on the LMS
2. Assessment digital attendance — scan the SSG QR
3. Sit WA-SAQ then Practical Performance — open book
4. Submit your answers on the LMS
5. Sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

COURSE PORTAL

LU1

LU1

AI-Assisted Infographic Planning and Data Insights

Purpose · Types · Audience · Metrics · Planning · Insight extraction

© 2026 Tertiary Infotech Academy Pte Ltd

Key Concepts — AI-Assisted Infographic Planning and Data Insights

1. An infographic combines concise text, data, shapes, colour, charts and icons to reveal information and relationships.

2. Chronology, timeline, process, comparison, statistical, mind map, numerical and hierarchical formats answer different questions.

3. A Copilot-first workflow gathers approved sources, cleans and analyses data, extracts candidate insights, then routes verified evidence into visual generation.

4. Insight extraction distinguishes what the chart shows, what it means, why it matters and what action is justified.

© 2026 Tertiary Infotech Academy Pte Ltd

DEFAULT MODERN WORKFLOW

AI-First Workflow — From Sources to Verified Insights

1

Collect

Approved files, URLs, transcripts and datasets; record origin and access date.

2

Clean

Remove duplicates, standardise units and labels, identify missing values and retain the raw source.

3

Analyse

Ask AI for patterns, exceptions and comparisons, then reproduce critical calculations in Excel.

4

Extract

Write show–mean–matter–act insights with citations, caveats and forbidden claims.

AI may propose patterns and transformations; keep raw sources and reproduce decision-critical calculations before visual generation.

© 2026 Tertiary Infotech Academy Pte Ltd

DEFAULT MODERN WORKFLOW

AI-First Workflow — From Generation to Accountable PowerPoint

1

Generate

In Microsoft 365 Copilot, choose Create > Design an infographic, describe the output, optionally add approved content, choose brand and orientation, then generate.

2

PowerPoint

Download or rebuild in PPTX; restore editability, charts, source labels, brand and accessibility.

3

Verify

Compare every claim to source, record prompts and human changes, approve and export.

Do not manually draw a full infographic from scratch when approved AI can create the first direction; use PowerPoint for editability, accuracy, brand and release control.

© 2026 Tertiary Infotech Academy Pte Ltd

Why Infographics Work

An effective infographic reduces friction between evidence and understanding.

Attention

Visual hierarchy helps the audience locate the important message quickly.

Compression

Words, data and relationships are combined into a scannable structure.

Comparison

Position, length, order and colour make differences and patterns visible.

Memory

A coherent visual story gives the audience meaningful anchors for recall.

Action

The final implication connects what is seen to what the audience should do.

© 2026 Tertiary Infotech Academy Pte Ltd

LU1 · FORMAT FIT

Infographic Types Answer Different Questions

Select the form by the relationship the audience must understand.

	Question	Useful form
Change	What happened across time?	Chronology or timeline
Process	How does it work?	Instructional flow, cycle or roadmap
Comparison	Which option differs and by how much?	Bar, dot plot or comparison cards
Distribution	Where are values concentrated?	Histogram, ranked bar or box plot
Hierarchy	How are parts organised?	Tree, pyramid or organisation chart
Relationships	How do ideas connect?	Mind map, network or matrix

© 2026 Tertiary Infotech Academy Pte Ltd

Plan an Infographic in Six Decisions

If the business question is unclear, a template or AI tool will produce a faster version of the wrong story.

© 2026 Tertiary Infotech Academy Pte Ltd

Insight Extraction Prompts

SHOW

What values, differences or trends are visible?

MEAN

What interpretation is plausible but not overstated?

MATTER

Why does the pattern matter to this audience?

ACT

What proportionate next step is supported?

LIMIT

What sample, denominator or uncertainty qualifies it?

CHECK

Can another reader reproduce the claim?

Separate observation from interpretation before writing the recommendation.

© 2026 Tertiary Infotech Academy Pte Ltd

T1

LO1 · LU1 · T1

statistical infographics show the pattern; context determines the decision

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1

What is statistical infographics show the pattern; context determines the decision?

1

Observation

What values, differences, trends or outliers are visible?

2

Interpretation

What relationship is suggested without claiming unsupported causation?

3

Implication

Why does the finding matter to the stated audience?

4

Action

What proportionate next step is supported by the evidence?

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Collect, Clean, Analyse, Verify

1

Collect

Register the approved CSV, workbook and research notes.

2

Clean

Standardise labels, units and missing-value handling without changing raw evidence.

3

Analyse

Prompt AI for patterns, exceptions and competing explanations.

4

Verify

Reproduce critical calculations and trace every claim to a source.

5

Extract

Write show–mean–matter–act insights with caveats.

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · COMPARE

Pattern vs Unsupported Story

Defensible

- Repeat customers rate delivery 8 points higher
- The result applies to this sample and period
- Test delivery messaging in the next campaign

Overclaim

- Delivery causes loyalty
- All customers prefer delivery
- Shift the entire budget immediately

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · SUPPORTING DATA

Northstar Retail Customer Pulse

1. **78%** — Overall satisfaction
2. **86%** — Repeat-customer satisfaction
3. **69%** — First-time-customer satisfaction
4. **+11 pts** — Mobile-app users vs non-users
5. **420** — Survey responses
6. **Q2 2026** — Synthetic reporting period

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

A chart answers a question only when context travels with it

REAL-WORLD EXAMPLE

Northstar Retail Singapore

The satisfaction gap is useful for targeting a follow-up test, but the survey does not prove that the mobile app caused higher satisfaction.

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · ACTIVITY 1

Interpret a Statistical KPI Infographic

CASE STUDY

THE SITUATION

Northstar Retail's marketing lead has a one-page customer survey infographic built from 420 synthetic Q2 responses. Leadership wants to know which customer experience deserves further investigation.

Use Microsoft 365 Copilot with the supplied approved data summary to propose candidate insights. Verify every number in Excel before recommending one next step.

You'll produce: A verified statistical KPI infographic, prompt/source log, annotated insight slide and one-sentence recommendation

Duration: 35 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · ACTIVITY 1

Interpret a Statistical KPI Infographic

DISCUSSION & DECISION PROMPTS

1. What is the strongest visible pattern?
2. Which denominator or segment could change the interpretation?
3. What can be said confidently, and what cannot?
4. What business action is proportionate to the evidence?

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · ACTIVITY 1

Interpret a Statistical KPI Infographic

REFLECT & DISCUSS

- Did the insight include context and uncertainty?
- Could the action be traced directly to the visual evidence?

✓ Facilitator debrief check

The final insight clearly separates what the data shows, what it may mean, why it matters and what should happen next.

© 2026 Tertiary Infotech Academy Pte Ltd

T2

LO1 · LU1 · T2

a strong prompt is an executable design brief

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2

What is a strong prompt is an executable design brief?

1

Objective

The audience, question, decision and desired action.

2

Content

Only evidence that earns a place in the visual story.

3

Structure

Timeline, process, comparison, statistical, hierarchy or hybrid.

4

Wireframe

A low-fidelity map of title, sections, visuals, labels and flow.

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Brief Before Generation

1. **Define**
   Write the objective and audience question.
2. **Ground**
   Attach only approved sources and verified insights.
3. **Specify**
   Name hierarchy, infographic form, brand and accessibility rules.
4. **Constrain**
   Forbid invented facts, unsupported causation and decorative clutter.
5. **Generate**
   Request two wireframe directions, then select by evidence fit.

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · COMPARE

Format Choice by Question

Question	Useful form
• What happened over time?	• Timeline / chronology
• How does the service work?	• Process / instructional
• Which option performs better?	• Comparison / statistical
• How are categories related?	• Hierarchy / mind map

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Wireframe Anatomy

1. **Hook**
   Title states the audience-relevant message.
2. **Context**
   Source, timeframe, unit and scope.
3. **Evidence**
   One primary chart or process carries the proof.
4. **Guidance**
   Arrows, order and whitespace control the reading path.
5. **Action**
   A concise implication or next step.
6. **Footer**
   Source, owner, date and accessibility notes.

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · ACTIVITY 2

Design a Comparison Infographic Brief

CASE STUDY

THE SITUATION

Northstar plans a sustainable-delivery campaign. The communication manager needs a portrait infographic showing the customer journey from order to low-emission delivery.

Use the supplied structured prompt workbook to ask Microsoft 365 Copilot for two comparison-infographic directions. Select one by evidence fit, then preserve it as the control brief for PowerPoint.

You'll produce: A structured Copilot prompt, two comparison-infographic directions and one approved PowerPoint wireframe

Duration: 35 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · ACTIVITY 2

Design a Comparison Infographic Brief

DISCUSSION & DECISION PROMPTS

1. What is the single audience question?
2. Which infographic type best reveals the relationship?
3. What content should be removed?
4. Where should the reader's eye land first, second and last?

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · ACTIVITY 2

Design a Comparison Infographic Brief

REFLECT & DISCUSS

- Could the wireframe be understood without colour?
- Does every placeholder have a message role?

✓ Facilitator debrief check

The wireframe communicates objective, hierarchy, evidence, flow, action and source space before visual styling begins.

© 2026 Tertiary Infotech Academy Pte Ltd

LU1 RECAP

Recap — AI-Assisted Infographic Planning and Data Insights

1

Interpret a Statistical KPI Infographic

You can now: interpret a statistical KPI infographic, verify its denominators and convert visible patterns into defensible business decisions.

2

Design a Comparison Infographic Brief

You can now: turn verified insights into a structured Microsoft 365 Copilot brief for a comparison infographic that controls audience, message, evidence and output.

© 2026 Tertiary Infotech Academy Pte Ltd

LU1 · WHY IT MATTERS

An infographic is an argument made visible.

Start with the audience question, the evidence and the intended decision.

© 2026 Tertiary Infotech Academy Pte Ltd

LU2

LU2

Creating PowerPoint Infographics with AI

Slide size · Grid · Shapes · Icons · Type · Colour · SmartArt · Charts · AI

© 2026 Tertiary Infotech Academy Pte Ltd

Key Concepts — Creating PowerPoint Infographics with AI

1. Visual hierarchy uses scale, position, contrast, spacing and alignment to guide the reader through one intended path.

2. PowerPoint is the editable refinement layer for AI-generated structure, imagery, text, shapes, SmartArt, native charts and Excel-linked data.

3. The Microsoft 365 Copilot app can generate an infographic from a detailed prompt and, where available, approved uploaded content for grounding.

4. Every AI-assisted output needs source verification, privacy review, brand control, accessibility checks and editable hand-off.

© 2026 Tertiary Infotech Academy Pte Ltd

Copy-Ready Prompts — Analyse and Generate

1

Analyse the evidence

Using only the attached approved source, identify the three strongest patterns, the denominator for each metric, one limitation and one proportionate business action. Cite the source field or row for every number. Do not invent missing values or imply causation.

2

Create the infographic

Create a one-page [TYPE] infographic about [TOPIC]. Sections: 1. [SECTION ONE] 2. [SECTION TWO] 3. [SECTION THREE] 4. [SECTION FOUR] 5. [SECTION FIVE]. Audience: [AUDIENCE]. Decision: [DECISION]. Style: professional, high contrast, concise, accessible and aligned to [BRAND]. Use only the approved attached content. Include source and period. Do not invent data.

© 2026 Tertiary Infotech Academy Pte Ltd

Copy-Ready Prompts — Refine and Review

1

Refine in PowerPoint

Turn the selected infographic direction into one editable PowerPoint slide. Keep the action title, labels, numbers, chart or process, source footer and accessibility notes editable. Remove decoration that does not support the message. Apply the approved brand colours and preserve one clear reading path.

2

Quality review

Review this infographic against message clarity, data accuracy, visual hierarchy, audience fit, accessibility, editability and business goal. List each issue with evidence, its impact, the proposed change and a pass/fail acceptance check. Do not rewrite verified facts.

© 2026 Tertiary Infotech Academy Pte Ltd

MICROSOFT 365 COPILOT · COPY AND ADAPT

Structured Prompt Example — Cybersecurity Awareness

Specify the infographic type, ordered sections, audience, decision, style and source constraint.

```
Create a one-page process infographic about cybersecurity awareness.
Sections:
1. Common threats
2. Phishing examples
3. Safe password practices
4. Multi-factor authentication
5. Reporting suspicious activity
Audience: office employees
Decision: recognise, avoid and report suspicious activity
Style: professional, high contrast and accessible
Source rule: use only the attached approved policy; do not invent facts
```

Pattern adapted from the user-supplied Microsoft 365 Copilot example; factual controls added for training use.

© 2026 Tertiary Infotech Academy Pte Ltd

Microsoft 365 Copilot — Creation Controls

1

Describe

State type, topic, sections, audience, decision, style and source constraints.

2

Add content

Upload only approved content when the feature and policy allow it.

3

Brand and color

Use an approved brand kit or a controlled palette.

4

Orientation

Choose Portrait for one-page reading or Wide for a presentation slide.

5

Create

Generate options, inspect the result and keep the strongest direction.

6

Edit or download

Correct facts, refine hierarchy and bring the accountable master into PowerPoint.

© 2026 Tertiary Infotech Academy Pte Ltd

DEMONSTRATION GALLERY

Twelve Workplace Infographic Use Cases

Statistical · comparison · timeline · process · cycle · funnel · hierarchy · mind map · geographic · before/after · scorecard · decision matrix

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 01 · STATISTICAL DASHBOARD

Customer satisfaction needs a first-time buyer intervention

Retail customer experience · synthetic training data, not operational evidence

78%	69%	86%	+17 pts
overall satisfaction	first-time buyers	repeat buyers	experience gap

Test a first-purchase onboarding message before changing the full service model.

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 02 · COMPARISON

Ready Meals combines growth with margin

Category promotion decision · synthetic training data, not operational evidence

Ready Meals	
18%	Q2 growth
32%	gross margin
4.1%	return rate

Beverages	
9%	Q2 growth
24%	gross margin
2.8%	return rate

Use Ready Meals as the next campaign test while monitoring returns.

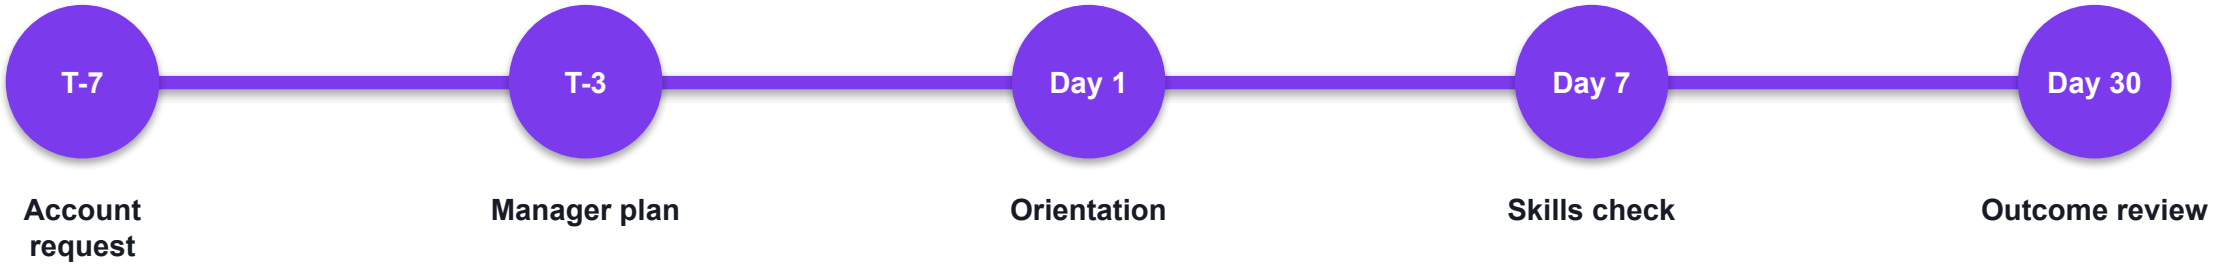

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 03 · TIMELINE

New-hire readiness improves when ownership starts before Day 1

Employee onboarding · synthetic training data, not operational evidence

Move account provisioning to the pre-boarding week.

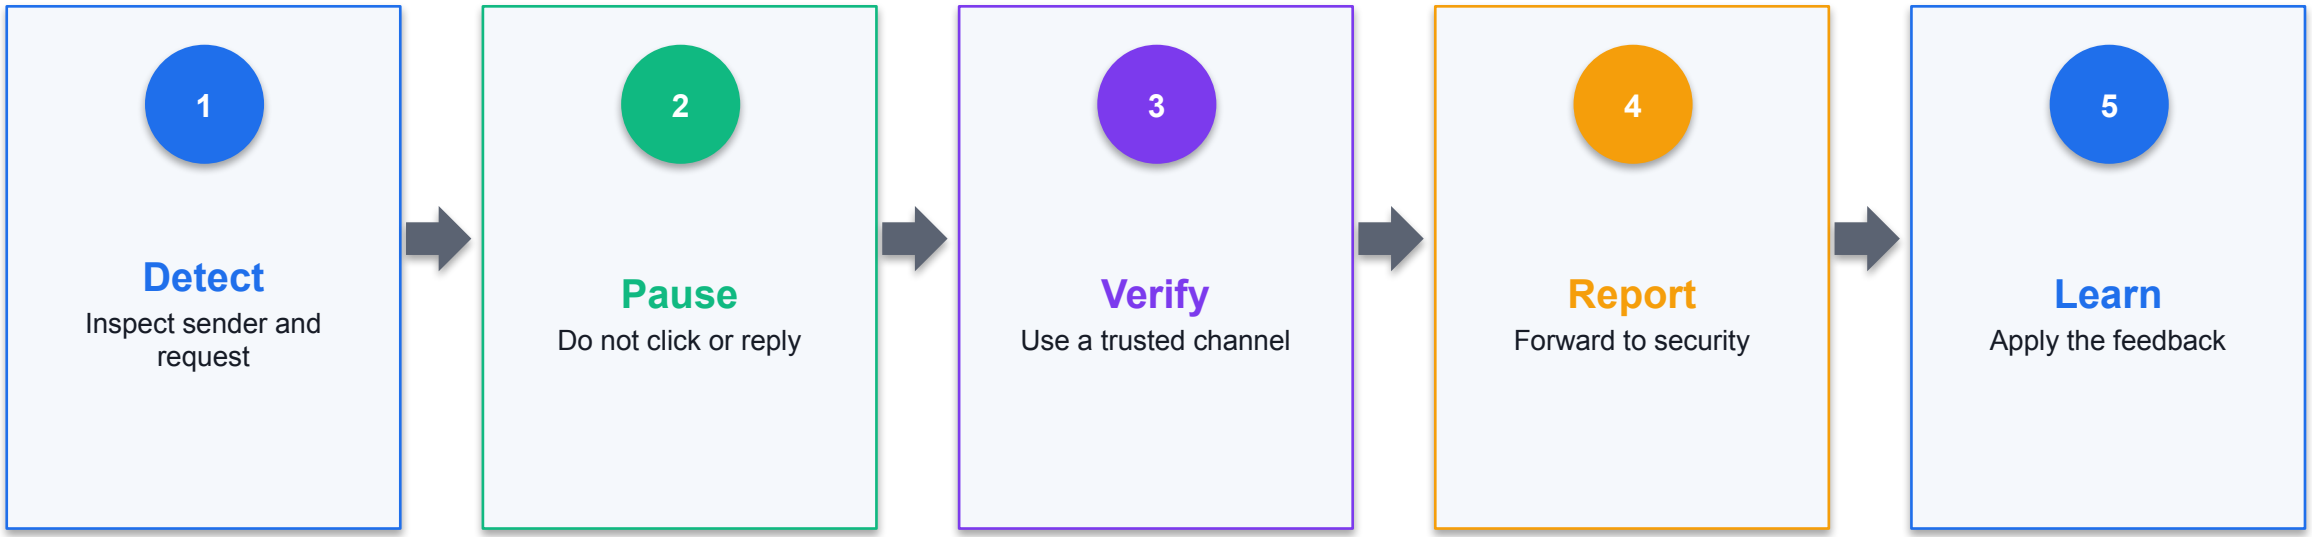

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 04 · PROCESS

Five controls reduce phishing exposure

Cybersecurity awareness · synthetic training data, not operational evidence

Make the reporting step visible beside every email client shortcut.

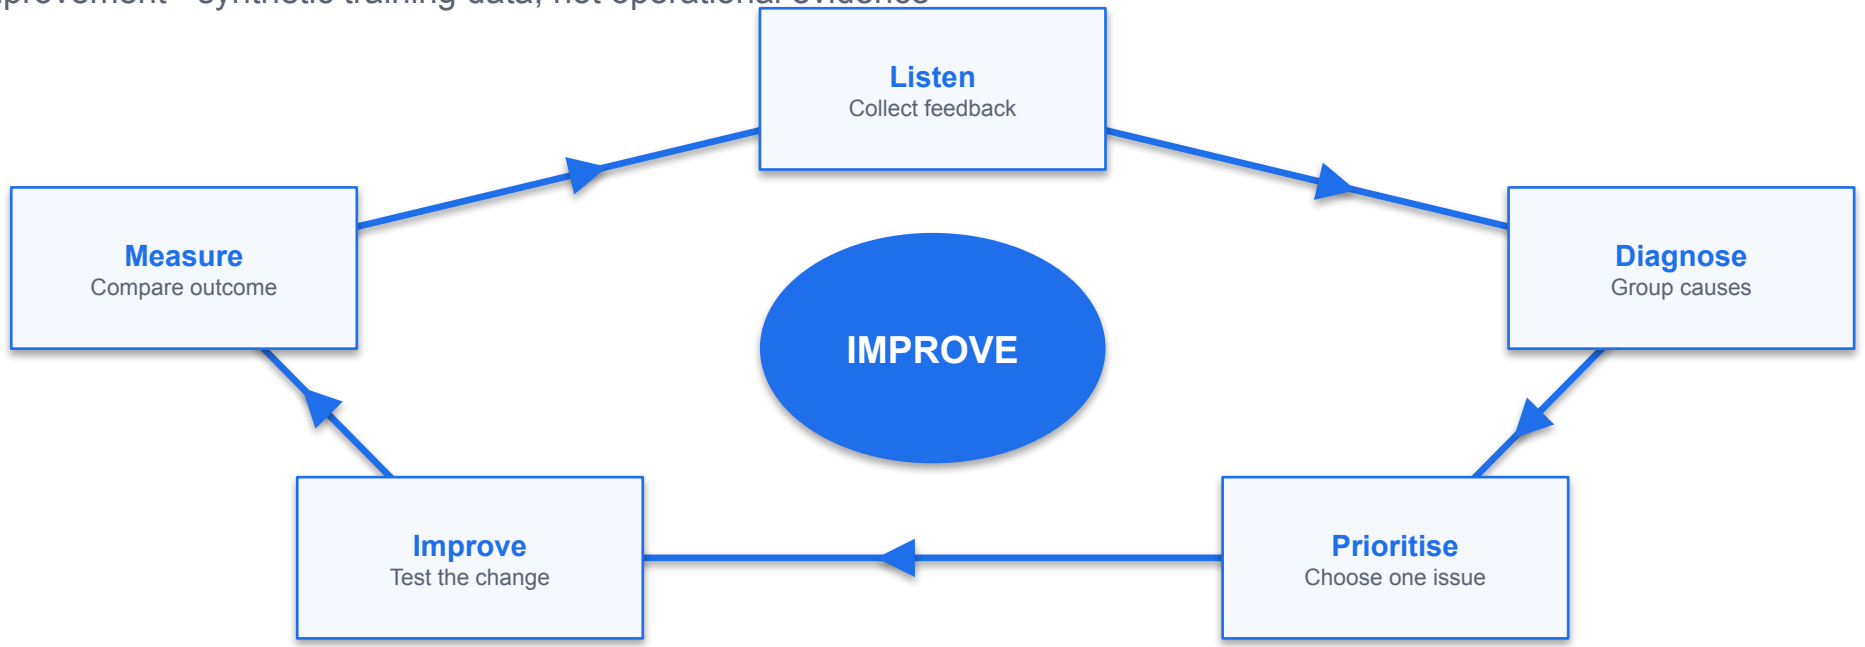

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 05 · CYCLE

Customer feedback becomes a monthly improvement loop

Service improvement · synthetic training data, not operational evidence

Close each monthly cycle with one owned experiment.

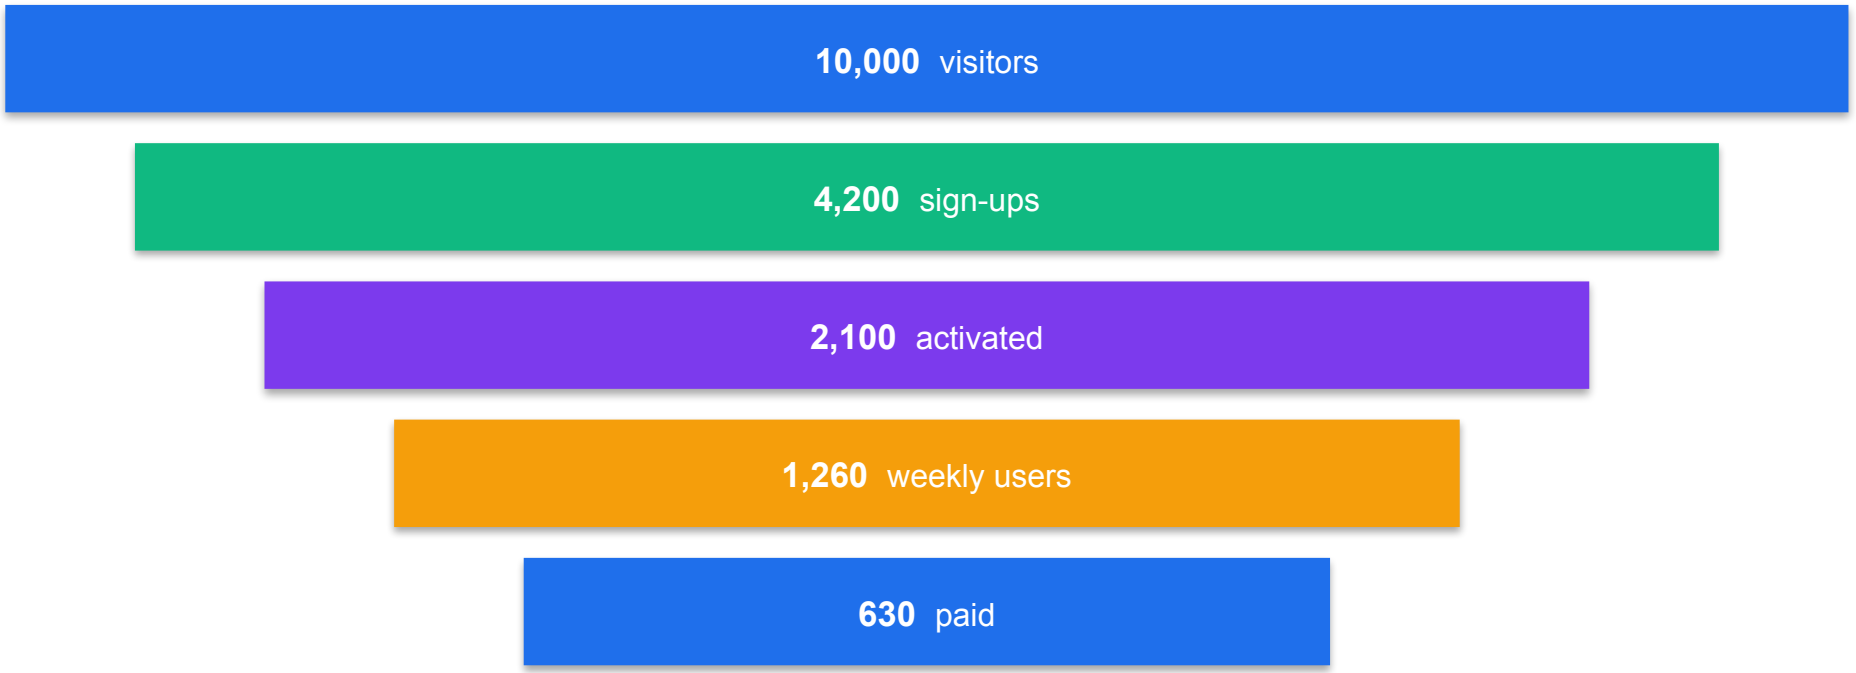

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 06 · FUNNEL

Trial activation is the largest conversion loss

SaaS adoption · synthetic training data, not operational evidence

Reduce the steps between sign-up and first successful task.

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 07 · HIERARCHY

Business goals translate into owned infographic measures

Strategy communication · synthetic training data, not operational evidence

Show ownership and review cadence below every business goal.

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 08 · MIND MAP

Stakeholder needs converge on one decision story

Stakeholder communication · synthetic training data, not operational evidence

Keep one core claim, then vary depth by audience.

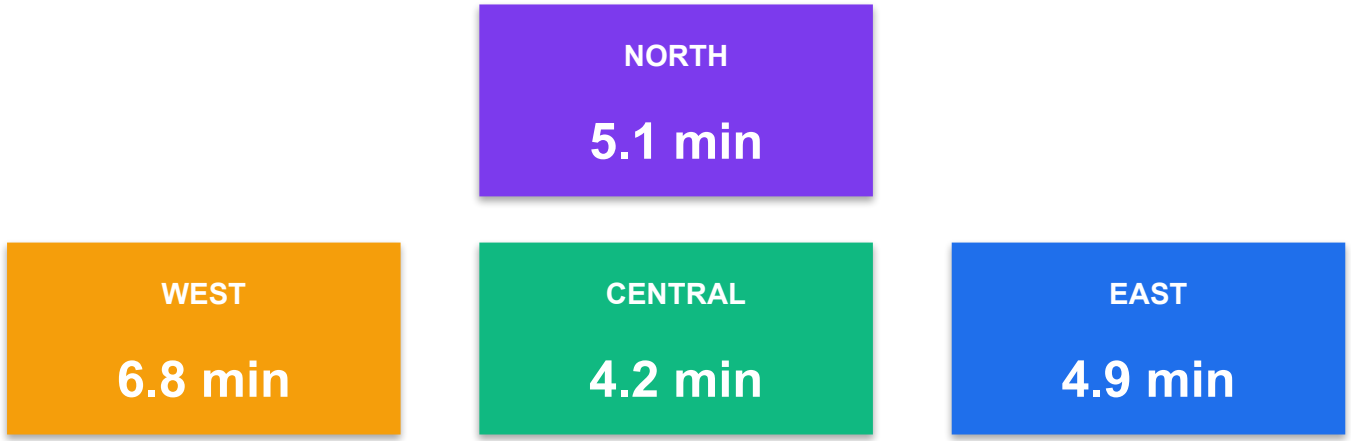

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 09 · GEOGRAPHIC

West-region stores need targeted queue redesign

Store operations · synthetic training data, not operational evidence

QUEUE-WAIT HEAT MAP

HOTTEST

WEST

6.8 min

N ↑

Pilot queue redesign in the West region before network-wide rollout.

REALISTIC WORKPLACE DEMO 10 · BEFORE AND AFTER

A simplified returns flow cuts avoidable handling

Operations redesign · synthetic training data, not operational evidence

BEFORE

9 old steps

18 min old handling

AFTER

5 new steps

11 min new handling

Standardise the five-step flow and audit exceptions for four weeks.

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 11 · RESOURCE SCORECARD

Copilot plus PowerPoint passes the operating gates

LO3 tool investment · synthetic training data, not operational evidence

SGD 19.7k	4.4/5	4/5	96
12-month cost	effectiveness	governance	annual outputs

Fund the workflow with quarterly accuracy and accessibility reviews.

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

REALISTIC WORKPLACE DEMO 12 · DECISION MATRIX

Wide format wins for leadership

Channel selection · synthetic training data, not operational evidence

FORMAT	AUDIENCE	SCREEN	ACTION	TOTAL
Wide	**5**	**5**	**5**	**15**
Portrait	4	2	4	10
Square	3	2	3	8

Score each format 1–5 against the same decision criteria.

Use Wide for the briefing and export a separate Portrait handout.

Source: realistic synthetic training scenario created for this course.

© 2026 Tertiary Infotech Academy Pte Ltd

LU2 · NATIVE CAPABILITY

PowerPoint's Editable Infographic Toolkit

Use the simplest editable object that communicates the relationship.

Layout

Slide size, guides, gridlines, alignment, distribute, group and Selection Pane.

Visual components

Shapes, connectors, icons, stock images, text boxes and merged shapes.

Structured diagrams

SmartArt lists, cycles, processes, hierarchies and timelines.

Data visualisation

Native charts, embedded workbooks and Excel-linked data.

Delivery

Animations, transitions, comments, co-authoring and presenter-friendly export.

© 2026 Tertiary Infotech Academy Pte Ltd

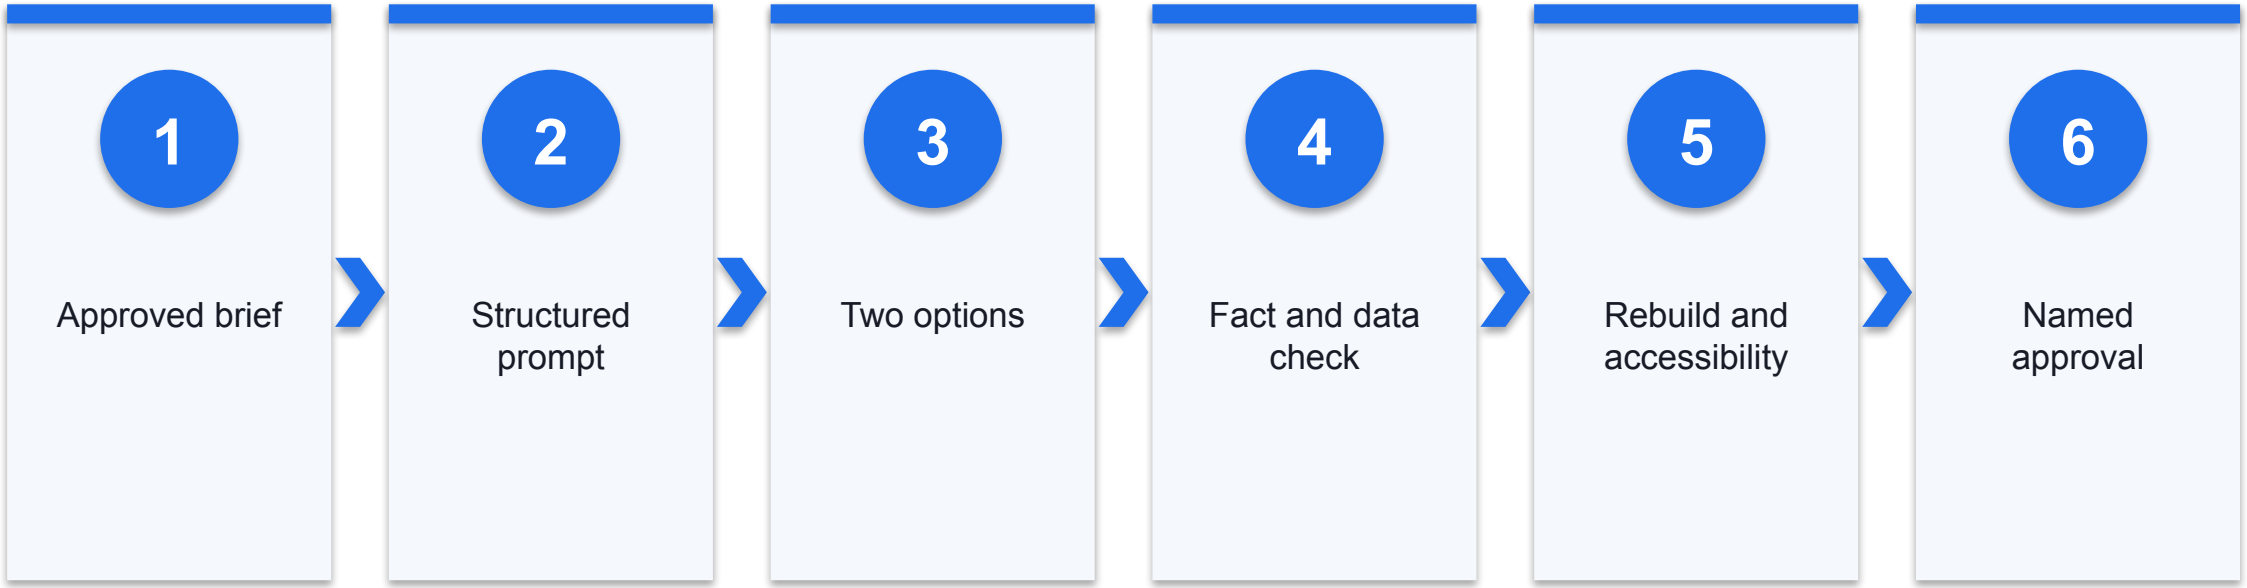

Microsoft 365 Copilot and PowerPoint: Use the Right Control

Microsoft's current support pages describe Copilot infographic generation and PowerPoint editing as connected stages.

	Useful assistance	Human responsibility
Design an infographic	Create a first direction from a detailed description and optional approved content	Choose the form by relationship; verify every generated section and claim
PowerPoint library	Icons, stock images, shapes, fonts, SmartArt and charts	Apply hierarchy, brand, accessibility and evidence standards
Copilot controls	Brand and color, Portrait or Wide, Create, Copy, Edit and Download where available	Record the chosen settings and preserve the strongest original direction
Copilot in PowerPoint	Add or edit slides, restructure content and refine visuals	Preserve editability and maintain the approved master
Collaboration	Comments, mentions and real-time editing	Control ownership, versions, reviewers and release status
Export	PPTX, PDF, JPG, slideshow and print	Test each channel for clipping, fonts, links and accessibility

© 2026 Tertiary Infotech Academy Pte Ltd

Human-in-the-Loop AI Workflow

AI can propose an infographic; it cannot own the truth, the data rights or the business decision.

© 2026 Tertiary Infotech Academy Pte Ltd

Editable PowerPoint Production Swimlane

Source: course workflow synthesis

Decision-critical charts, labels and sources stay editable and traceable.

© 2026 Tertiary Infotech Academy Pte Ltd

A Native Chart Is Part of the Evidence Chain

DATA

CSV and workbook retain definitions and formulas

CHART

Native PowerPoint object keeps labels and values editable

TITLE

Action title states the supported insight

CONTEXT

Source, period, unit and limitation travel with the chart

UPDATE

A changed input can refresh the visual

OWNER

A named person verifies and releases the final slide

Screenshots break the update path and hide the calculation trail.

© 2026 Tertiary Infotech Academy Pte Ltd

T1

LO2 · LU2 · T1

a Copilot timeline turns dated evidence into an ordered stakeholder story

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1

What is a Copilot timeline turns dated evidence into an ordered stakeholder story?

1

Template fit

Choose a timeline, flowchart, roadmap, poster or comparison that matches the question.

2

Editable system

Retain shapes, SmartArt, text, charts and brand elements as editable objects.

3

Brand control

Apply an approved palette, type hierarchy, logo and background deliberately.

4

Evidence control

Replace every placeholder with verified data and source context.

Source: Microsoft Support — Create an infographic with Microsoft 365 Copilot, accessed 16 August 2026

© 2026 Tertiary Infotech Academy Pte Ltd

Copilot-to-Timeline Workflow

1

Describe

Specify the timeline topic, five milestones, audience and decision.

2

Ground

Add only the approved onboarding brief and dated evidence.

3

Generate

Choose Wide, apply brand and create two timeline directions.

4

Refine

Correct sequence, labels, spacing and accessibility in PowerPoint.

5

Export

Test PPTX, PDF and image output.

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1 · COMPARE

Template Decoration vs Message Adaptation

Decoration-led

- Keep every template section
- Choose colours first
- Paste data into available boxes
- Flatten the final slide

Message-led

- Remove any section that does not earn space
- Use the approved hierarchy and brand
- Choose the chart or shape for the relationship
- Retain an editable master

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Template Audit Checklist

1. **Purpose**
   Does the layout answer the audience question?
2. **Content**
   Are all placeholders replaced and all claims verified?
3. **Hierarchy**
   Is the reading order obvious at thumbnail size?
4. **Brand**
   Are palette, type, logo and tone approved?
5. **Access**
   Are contrast, labels and alt text adequate?
6. **Output**
   Do PPTX, PDF and JPG render as intended?

Source: illustrative synthetic data

Create a Timeline Infographic with Microsoft 365 Copilot

REFLECT & DISCUSS

- Did the result still match the approved wireframe?
- Can another team member update the data without rebuilding the design?

✓ Facilitator debrief check

The final template-based infographic is message-led, branded, accessible, source-labelled and fully editable.

Copilot proposes the process direction; PowerPoint preserves the controlled system

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2

What is Copilot proposes the process direction; PowerPoint preserves the controlled system?

1

Asset prompt

Specify subject, style, composition, palette, transparency and exclusions.

2

Consistency

Generate one coherent family rather than unrelated visual styles.

3

Editable meaning

Keep claims, labels, numbers, connectors and charts as native PowerPoint objects.

4

Provenance

Record tool, prompt, date, intended use, review and human changes.

Source: course synthesis

Prompt-to-Process-to-PowerPoint

1. **Describe**
   Name the five stages, audience, decision, source and visual constraints.
2. **Generate**
   Create a Wide process infographic in Microsoft 365 Copilot.
3. **Inspect**
   Reject wrong sequence, invented claims, ambiguous symbols and clutter.
4. **Rebuild**
   Create editable PowerPoint stages, connectors, labels and metrics.
5. **Verify**
   Check source, alt text, reading order and export.

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2 · COMPARE

Generated Asset vs Information Evidence

AI image can support

- Mood and visual metaphor
- Consistent illustrative icon family
- Background or hero imagery
- Non-data decorative support

PowerPoint must carry

- Verified numbers and claims
- Editable labels and source notes
- Native charts and meaningful connectors
- Reading order and accessibility

Create a Process Infographic with Microsoft 365 Copilot

CASE STUDY

THE SITUATION

Northstar needs an editable five-stage sustainable-delivery process infographic for store managers. Use the supplied structured Microsoft 365 Copilot prompt and approved synthetic stage data.

Treat the Copilot output as a design direction. Build all stage names, values, connectors, source labels and decision meaning as editable PowerPoint objects.

You'll produce: A Copilot prompt log, editable five-stage process infographic and reusable PowerPoint component slide

Duration: 35 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2 · ACTIVITY 4

Create a Process Infographic with Microsoft 365 Copilot

DISCUSSION & DECISION PROMPTS

1. Which visual property signals sequence?
2. Where is direct labelling still required?
3. Would SmartArt clarify or constrain this design?
4. How will the system remain reusable?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2 · ACTIVITY 4

Create a Process Infographic with Microsoft 365 Copilot

REFLECT & DISCUSS

- Can the process be scanned left to right in five seconds?
- Are all objects aligned, grouped and editable?

✓ Facilitator debrief check

The process uses a consistent component system, real connectors, direct labels, purposeful whitespace and editable PowerPoint objects.

AI finds candidate patterns; Excel and PowerPoint make the evidence auditable

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3

What is AI finds candidate patterns; Excel and PowerPoint make the evidence auditable?

1

Metric fit

Select values that answer the business question and use consistent denominators.

2

Chart fit

Bar for comparison, line for time, scatter for relationship, composition only when part-to-whole matters.

3

Data integrity

Preserve units, timeframe, source and calculation logic.

4

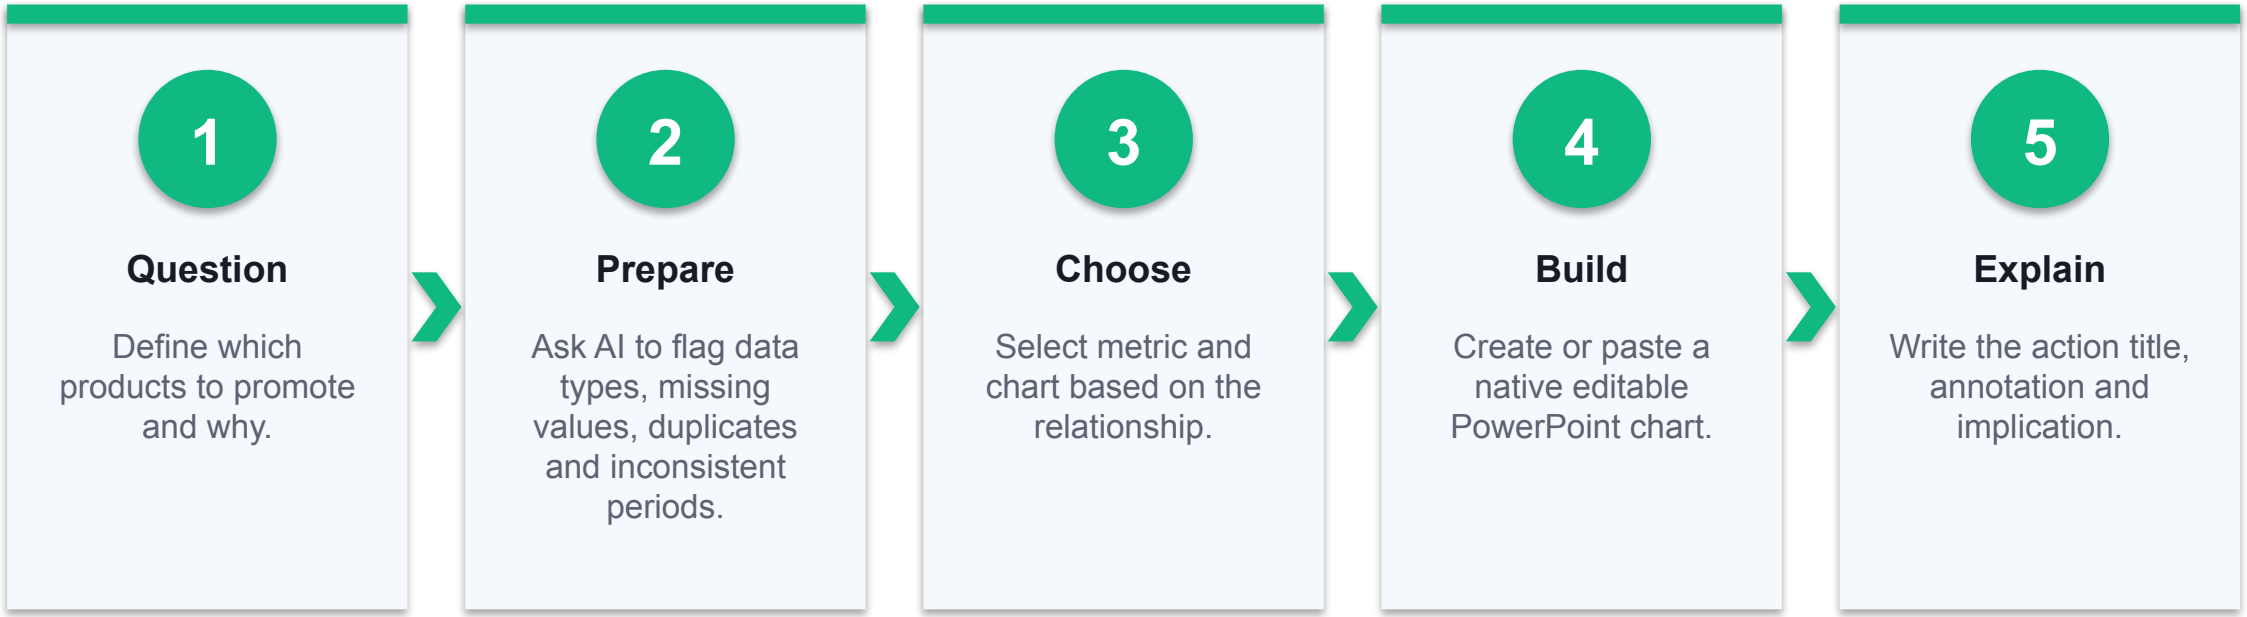

Annotation

Use an action title, direct labels and one purposeful accent to reveal the takeaway.

LO2 · LU2 · T3 · ACTIVITY 5

Create a Comparison Data Story with Copilot and PowerPoint

CASE STUDY

THE SITUATION

Northstar's marketing team must choose one product family for the next promotion. The supplied workbook contains monthly revenue, units, margin and returns for four categories.

Prompt an approved AI assistant to analyse the workbook and propose candidate insights. Reproduce the selected calculations in Excel, then create an editable PowerPoint chart with an explicit decision implication.

You'll produce: A Copilot analysis log, verified formula workbook, comparison infographic and annotated decision slide

Duration: 45 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · ACTIVITY 5

Create a Comparison Data Story with Copilot and PowerPoint

DISCUSSION & DECISION PROMPTS

1. Which metric answers the actual business question?
2. What does the chart show that a table does not?
3. Which context or caveat belongs on the slide?
4. Which product should be tested and why?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · ACTIVITY 5

Create a Comparison Data Story with Copilot and PowerPoint

REFLECT & DISCUSS

- Can the chart be updated from the workbook?
- Does the title state the conclusion rather than the topic?

✓ Facilitator debrief check

The chart is native/editable, uses an appropriate form, retains source context and makes a proportionate product-promotion recommendation.

a hierarchy connects the business goal to outcomes, measures, owners and review

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4

What is a hierarchy connects the business goal to outcomes, measures, owners and review?

1

Business goal

State the intended outcome and boundary at the top.

2

Outcome

Show the observable change that indicates progress.

3

Measure

Attach a defined metric, unit, source and target.

4

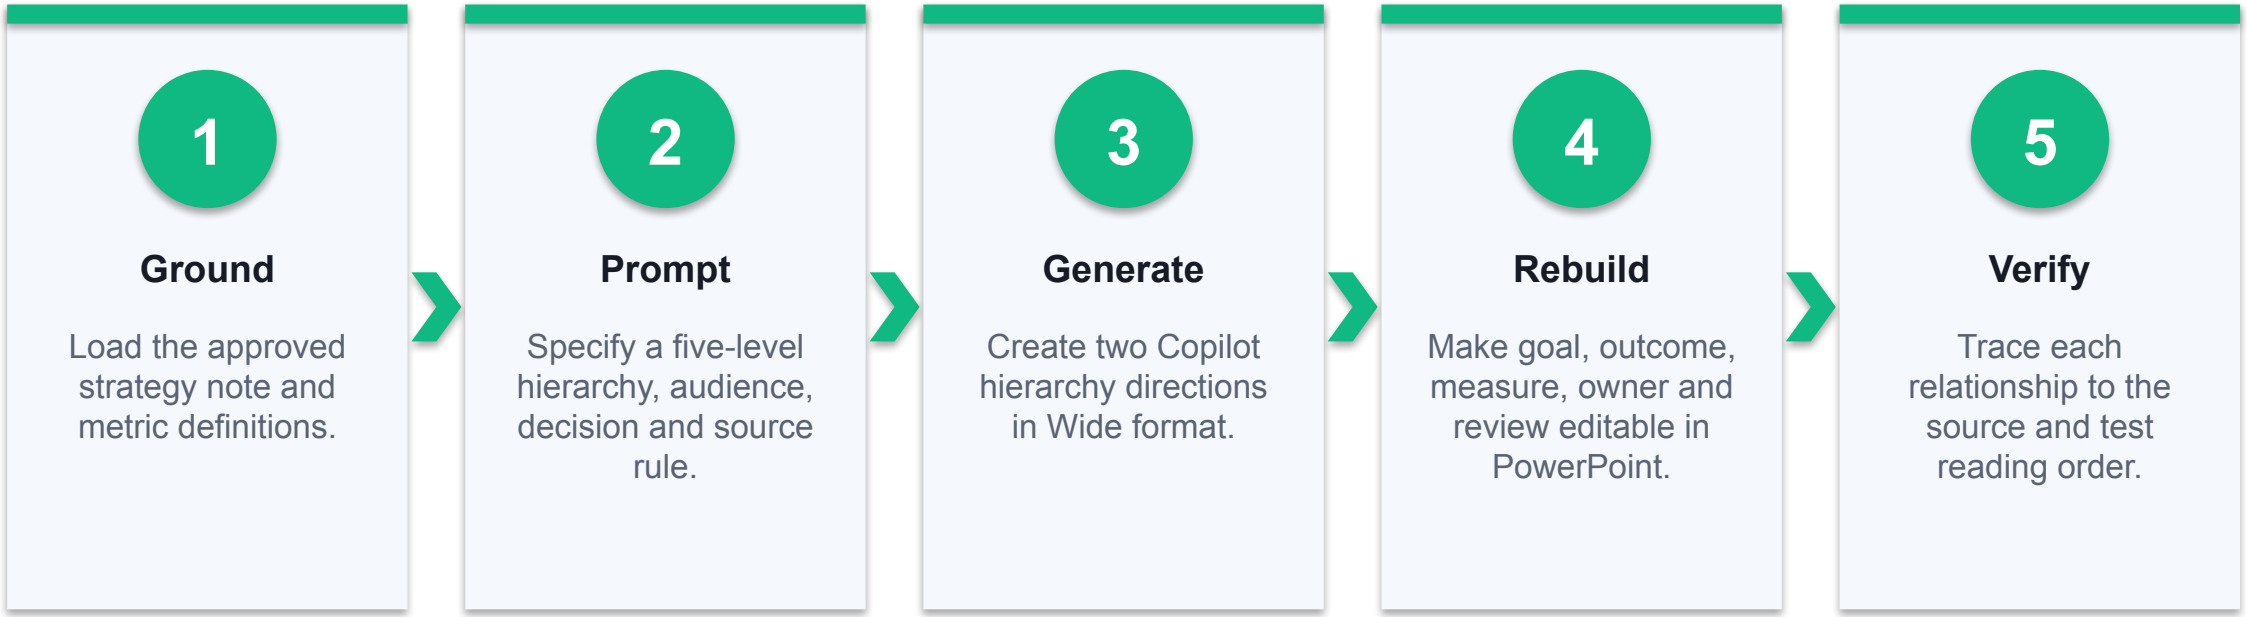

Owner and review

Name accountability and a review cadence at the base.

Source: Microsoft Support — Create an infographic with the Microsoft 365 Copilot app, accessed 5 September 2026

© 2026 Tertiary Infotech Academy Pte Ltd

Goal-to-Measure Hierarchy

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · COMPARE

Decorative Pyramid vs Accountable Hierarchy

Decorative

- Vague ambition at the top
- Mixed measures and activities
- No source or owner
- No review trigger

Accountable

- Defined goal and boundary
- Outcome linked to one metric
- Named source and owner
- Review cadence and reversal trigger

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Accountable Goal Hierarchy

1

Goal

Improve service trust within the customer-support function.

2

Outcome

Customers receive faster, clearer recovery updates.

3

Measure

Priority cases resolved within four hours.

4

Owner

Customer operations director.

5

Review

Monthly governance review with exception evidence.

6

Gate

No public claim without source, period and approval.

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · ACTIVITY 6

Create a Hierarchy Infographic with Microsoft 365 Copilot

CASE STUDY

THE SITUATION

Northstar wants an executive hierarchy infographic connecting its service-trust goal to a recovery outcome, a four-hour measure, the customer-operations owner and a monthly review.

Use Microsoft 365 Copilot with the approved strategy note to create two hierarchy directions. Verify the relationships, then rebuild the selected direction as an editable PowerPoint hierarchy.

You'll produce: Two Copilot hierarchy directions, a reviewed editable PowerPoint hierarchy and a prompt/source log

Duration: 45 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · ACTIVITY 6

Create a Hierarchy Infographic with Microsoft 365 Copilot

DISCUSSION & DECISION PROMPTS

1. What must the prompt include to prevent a generic output?
2. Which data cannot be sent to an unapproved service?
3. What must be rebuilt as native PowerPoint objects?
4. Who signs off the final infographic?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · ACTIVITY 6

Create a Hierarchy Infographic with Microsoft 365 Copilot

REFLECT & DISCUSS

- Did AI accelerate options without becoming the source of truth?
- Is the final result independently editable and auditable?

✓ Facilitator debrief check

The final slide records the prompt, sources and human changes; all claims are verified and the decision evidence remains editable.

LU2 RECAP

Recap — Creating PowerPoint Infographics with AI

1

Create a Timeline Infographic with Microsoft 365 Copilot

You can now: create a timeline infographic in the Microsoft 365 Copilot app, then preserve hierarchy, editability, brand and evidence in PowerPoint.

2

Create a Process Infographic with Microsoft 365 Copilot

You can now: use Microsoft 365 Copilot to generate a five-stage process infographic, then rebuild decision-critical labels, shapes, connectors and SmartArt as editable PowerPoint objects.

3

Create a Comparison Data Story with Copilot and PowerPoint

You can now: use Microsoft 365 Copilot to analyse approved mock Excel data, verify calculations, then create a comparison infographic with a native editable chart in PowerPoint.

4

Create a Hierarchy Infographic with Microsoft 365 Copilot

You can now: generate a source-grounded business-goal hierarchy in Microsoft 365 Copilot and refine it as an accountable editable PowerPoint master.

© 2026 Tertiary Infotech Academy Pte Ltd

LU2 · WHY IT MATTERS

The fastest workflow keeps the message editable.

Use templates and AI for options; keep data, charts, labels and decisions under human control.

© 2026 Tertiary Infotech Academy Pte Ltd

LU3

Evaluating and Presenting Infographics for Business Impact

Story · Context · Simplicity · Coaching · Budget · Effectiveness · Improvement

© 2026 Tertiary Infotech Academy Pte Ltd

Key Concepts — Evaluating and Presenting Infographics for Business Impact

1. Effective review separates message clarity, data integrity, visual hierarchy, accessibility, audience fit and business usefulness.

2. Coaching uses specific observations, questions and criteria rather than taste-based comments such as 'make it pop'.

3. Tool investment is evaluated through capability, licence, learning, production, governance, collaboration and maintenance costs.

4. Improvement is evidence-led: gather feedback, prioritise changes, revise the controlled master and retest the intended outcome.

© 2026 Tertiary Infotech Academy Pte Ltd

LU3 · REVIEW

Six Dimensions of Infographic Effectiveness

A professional review connects design decisions to audience and business outcomes.

Clarity

The audience can state the message and action without trainer explanation.

Integrity

Data, scale, context, source and uncertainty are accurate and visible.

Hierarchy

The reading order guides attention to evidence and implication.

Accessibility

Contrast, text size, labels, alt text and non-colour cues support access.

Engagement

The visual earns attention without chart junk or decorative distraction.

Business fit

The output supports the stated decision, channel, resources and governance.

© 2026 Tertiary Infotech Academy Pte Ltd

Do and Don't: Review the Story, Not Just the Style

The legacy deck's core dos and don'ts remain valid and are now tied to review criteria.

	Don't	Do
Meaning	Rely on iconography alone	Use icons with direct labels and explanatory context
Decoration	Add chart junk, 3-D effects or unnecessary elements	Keep graphical elements simple and purposeful
Context	Show a number without comparison, unit or source	Provide scale, timeframe, denominator and implication
Story	Present isolated facts in template order	Create a narrative that leads from question to evidence to action
Scope	Include every available piece of information	Curate the minimum evidence needed for the decision

© 2026 Tertiary Infotech Academy Pte Ltd

Evidence-Led Improvement Loop

1. Observe audience outcome
2. Diagnose six dimensions
3. Prioritise by impact
4. Assign and revise
5. Retest and approve

A revision is complete only when the controlled master, evidence and acceptance check are updated together.

© 2026 Tertiary Infotech Academy Pte Ltd

Tool Investment: Beyond the Licence Fee

LICENCE

Subscription, add-ons and user count

LEARN

Training, templates and adoption support

BUILD

Production and collaboration time

REVIEW

Data, brand, accessibility and legal checks

MAINTAIN

Updates, asset libraries and controlled masters

REWORK

Errors, lock-in, export failures and continuity risk

The lowest monthly price may create the highest total resource cost.

a mind map reveals stakeholder relationships before coaching improves the story

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T1

What is a mind map reveals stakeholder relationships before coaching improves the story?

1

Observe

Describe what the reader sees or experiences without judging intent.

2

Question

Ask which audience, message, decision or constraint drove the choice.

3

Explain

Connect the issue to a principle or observed outcome.

4

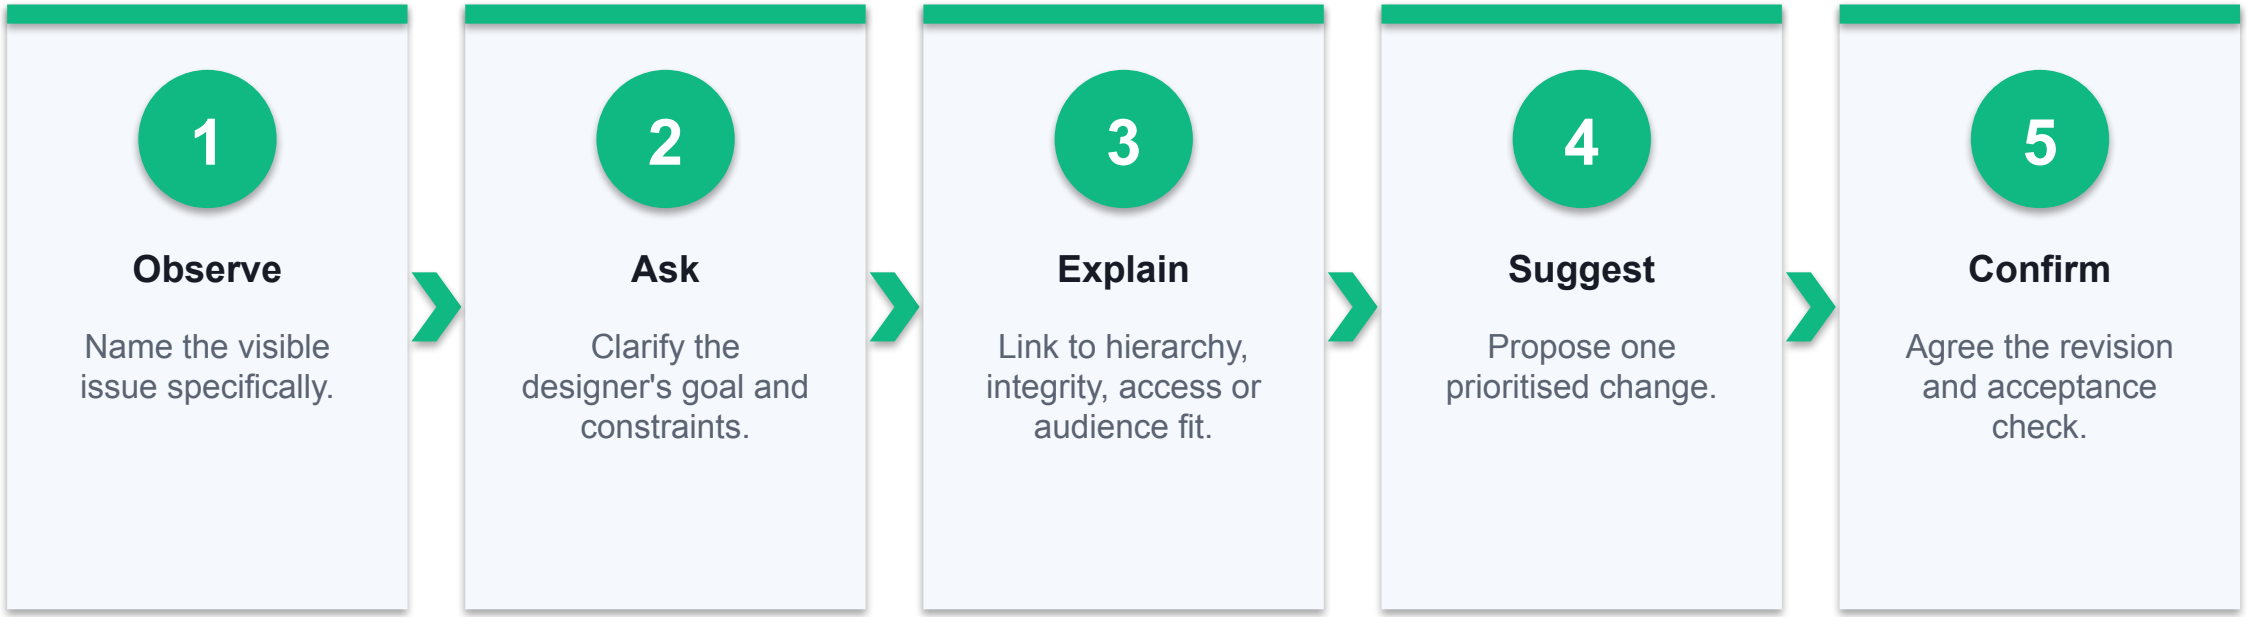

Suggest

Recommend one testable change and define what better looks like.

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Observe, Ask, Explain, Suggest, Confirm

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T1 · COMPARE

Taste Comment vs Coaching Feedback

Taste

- Make it pop
- I don't like the colours
- Add more icons
- It feels boring

Criteria-based

- The title labels a topic but does not state the insight
- Body text falls below the agreed size
- Three icon styles disrupt the visual grammar
- The accent does not guide attention to the decision

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Review Lens

1. **Message**
   Can the audience state the takeaway?
2. **Data**
   Are claims accurate, contextualised and sourced?
3. **Hierarchy**
   Is the reading order obvious?
4. **Access**
   Are contrast, labels, text size and alt text adequate?
5. **Story**
   Do evidence and action connect logically?
6. **Fit**
   Does the output match the audience and channel?

Source: illustrative synthetic data

Datawrapper Academy: What to consider when creating charts

academy.datawrapper.de

© 2026 Tertiary Infotech Academy Pte Ltd

COURSE WRAP-UP

The CLEAR Infographic Workflow

01 Collect

Gather and organise approved files, notes and datasets for Microsoft 365 Copilot and PowerPoint.

02 Analyse

Clean the data, reconcile units and periods, test patterns and extract candidate insights with citations.

03 Generate

Prompt Microsoft 365 Copilot for an evidence-led infographic direction and preserve the exact prompt.

04 Refine

Convert or rebuild the selected direction in PowerPoint with editable text, charts, labels and brand controls.

05 Verify

Audit truth, privacy, rights, accessibility, provenance and export before release.

Clarify the question, link the evidence, edit the visual hierarchy, audit the truth and release the right format.

© 2026 Tertiary Infotech Academy Pte Ltd

WRAP-UP

Course Summary & Next Steps

© 2026 Tertiary Infotech Academy Pte Ltd

LEARNING OUTCOMES

What You Achieved

1

Draw Insights

Converted visual patterns into contextualised, defensible recommendations.

2

Create in PowerPoint

Generated varied infographic directions with Microsoft 365 Copilot, then refined editable charts, labels and decisions.

3

Assess Effectiveness

Used peer evidence, resource criteria and governance to improve and invest.

© 2026 Tertiary Infotech Academy Pte Ltd

WRAP-UP

Assessment

1

Written Assessment (WA-SAQ)

Nine open-ended questions — 30 minutes, open book.

2

Practical Performance (PP)

Three progressive tasks — 30 minutes, open book.

3

Open Book

Slides, Learner Guide and approved materials only.

4

Submit

On the LMS — lms-tms.tertiaryinfotech.com

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM survey — scan the QR code on the LMS
2. Assessment digital attendance — scan the SSG QR
3. Sit WA-SAQ then Practical Performance — open book
4. Submit your answers on the LMS
5. Sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

SSG DIGITAL ATTENDANCE

Digital Attendance (Mandatory)

1. It is mandatory to take the AM, PM and Assessment digital attendance for WSQ-funded courses.
2. The trainer/administrator displays the digital attendance QR code from the SSG portal.
3. Scan the QR code with your mobile phone camera and submit your attendance.
4. A minimum of 75% attendance is required to be eligible for assessment and funding.

© 2026 Tertiary Infotech Academy Pte Ltd

SEE YOU AT THE NEXT ONE

Thank You!

You can now move from approved sources to AI-assisted insights and infographic options, then deliver an accurate, editable and accountable PowerPoint master.
