SSG DIGITAL ATTENDANCE

Digital Attendance (Mandatory)

1. It is mandatory to take the AM, PM and Assessment digital attendance for WSQ-funded courses.
2. The trainer/administrator displays the digital attendance QR code from the SSG portal.
3. Scan the QR code with your mobile phone camera and submit your attendance.
4. A minimum of 75% attendance is required to be eligible for assessment and funding.

YOUR TRAINER

About the Trainer

Dr. Alfred Ang

Principal Trainer
Tertiary Infotech Academy Pte. Ltd.

ROLE
Principal Trainer, Tertiary Infotech Academy Pte. Ltd.

CERTIFICATION / CREDENTIALS
20+ years of training and industry experience.

DELIVERS
WSQ courses on PowerPoint, data visualisation, generative AI and workplace productivity.

FOUNDER
Founder and lead instructor at Tertiary Infotech / Tertiary Courses.

© 2026 Tertiary Infotech Academy Pte Ltd

ICE-BREAKER

Let's Know Each Other

1. Your name and organisation / role.

2. Your experience with PowerPoint, charts or infographics (if any).

3. One visual communication habit you want to improve during this course.

© 2026 Tertiary Infotech Academy Pte Ltd

HOUSEKEEPING

Ground Rules

1. Set your mobile phone to silent mode.
2. Actively participate — no question is too small.
3. Respect each other's views: agree to disagree.
4. One conversation at a time.
5. Be punctual; return from breaks on time.
6. 75% attendance is required for funding eligibility.

COURSE ACCREDITATION

Skills Framework

1

TSC Title

Infographics and Data Visualisation

2

TSC Code

TOU-DAT-4004-1.1-1

3

Proficiency Level

Skills Framework for Tourism

4

Structure

3 Learning Units aligned to the 3 approved Learning Outcomes.

© 2026 Tertiary Infotech Academy Pte Ltd

3 LEARNING UNITS

Course Outline

1

LU1 — Introduction to Infographics

Purpose · Types · Audience · Metrics · Planning · Insight extraction

2

LU2 — Create Infographics in PowerPoint

Slide size · Grid · Shapes · Icons · Type · Colour · SmartArt · Charts · AI

3

LU3 — Review Infographics

Story · Context · Simplicity · Coaching · Budget · Effectiveness · Improvement

© 2026 Tertiary Infotech Academy Pte Ltd

SCHEDULE

Lesson Plan — 1 Day

Morning

- Morning — Plan and interpret
  - 9:00am admin, outcomes and assessment briefing
  - LU1: Introduction to Infographics (Activities 1–2)
  - LU2 begins: PowerPoint foundations and template workflow

Afternoon & Assessment

- Afternoon — Create, review and assess
  - LU2: native objects, Excel chart and AI Designer (Activities 3–6)
  - LU3: peer coaching, budget and effectiveness (Activities 7–8)
  - Assessment: WA-SAQ 30 min + PP 30 min, 5:00–6:00pm
- Timing
  - 9:00am–6:00pm · 60-minute lunch · 10-minute breaks

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL ACHIEVE

Learning Outcomes

1

Draw Insights

Interpret infographic evidence and make proportionate data-driven decisions.

2

Create in PowerPoint

Use templates, native objects, Excel data and AI assistance to articulate insights.

3

Assess Effectiveness

Review audience outcomes, resource fit, governance and improvement priorities.

© 2026 Tertiary Infotech Academy Pte Ltd

Briefing for Assessment

1. Place phones and other materials under the table or on the floor.
2. No photos or recording of assessment scripts.
3. No discussion during the assessment.
4. Use a black/blue pen for hard-copy assessments.
5. No liquid paper / correction tape.
6. Scripts are collected when time is up.

© 2026 Tertiary Infotech Academy Pte Ltd

FINAL ASSESSMENT

Assessment

1. Written Assessment (WA-SAQ) — nine open-ended questions, 30 minutes, open book.
2. Practical Performance (PP) — three progressive tasks, 30 minutes, open book.
3. Format: Open Book — slides, Learner Guide and approved materials only.
4. A minimum of 75% attendance is required. Learners must be assessed as Competent and complete the required digital attendance and TRAQOM steps.
5. An appeal process is available if required.

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM survey — scan the QR code on the LMS
2. Assessment digital attendance — scan the SSG QR
3. Sit WA-SAQ then Practical Performance — open book
4. Submit your answers on the LMS
5. Sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

COURSE PORTAL

Courseware & Assessment on the LMS

Everything for the open-book assessment — slides, Learner Guide and submissions — lives on the LMS.

LU1

Introduction to Infographics

Purpose · Types · Audience · Metrics · Planning · Insight extraction

© 2026 Tertiary Infotech Academy Pte Ltd

Key Concepts — Introduction to Infographics

1. An infographic combines concise text, data, shapes, colour, charts and icons to reveal information and relationships.

2. Chronology, timeline, process, comparison, statistical, mind-map, numerical and hierarchical formats answer different questions.

3. Planning moves from objective and audience to content curation, metric selection, structure and a low-fidelity wireframe.

4. Insight extraction distinguishes what the chart shows, what it means, why it matters and what action is justified.

© 2026 Tertiary Infotech Academy Pte Ltd

Why Infographics Work

An effective infographic reduces friction between evidence and understanding.

Attention

Visual hierarchy helps the audience locate the important message quickly.

Compression

Words, data and relationships are combined into a scannable structure.

Comparison

Position, length, order and colour make differences and patterns visible.

Memory

A coherent visual story gives the audience meaningful anchors for recall.

Action

The final implication connects what is seen to what the audience should do.

© 2026 Tertiary Infotech Academy Pte Ltd

LU1 · FORMAT FIT

Infographic Types Answer Different Questions

Select the form by the relationship the audience must understand.

	Question	Useful form
Change	What happened across time?	Chronology or timeline
Process	How does it work?	Instructional flow, cycle or roadmap
Comparison	Which option differs and by how much?	Bar, dot plot or comparison cards
Distribution	Where are values concentrated?	Histogram, ranked bar or box plot
Hierarchy	How are parts organised?	Tree, pyramid or organisation chart
Relationships	How do ideas connect?	Mind map, network or matrix

© 2026 Tertiary Infotech Academy Pte Ltd

Plan an Infographic in Six Decisions

If the business question is unclear, a template or AI tool will produce a faster version of the wrong story.

© 2026 Tertiary Infotech Academy Pte Ltd

Insight Extraction Prompts

SHOW

What values, differences or trends are visible?

MEAN

What interpretation is plausible but not overstated?

MATTER

Why does the pattern matter to this audience?

ACT

What proportionate next step is supported?

LIMIT

What sample, denominator or uncertainty qualifies it?

CHECK

Can another reader reproduce the claim?

Separate observation from interpretation before writing the recommendation.

© 2026 Tertiary Infotech Academy Pte Ltd

T1

LO1 · LU1 · T1

a four-part insight: show, mean, matter, act

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1

What is a four-part insight: show, mean, matter, act?

1

Observation

What values, differences, trends or outliers are visible?

2

Interpretation

What relationship is suggested without claiming unsupported causation?

3

Implication

Why does the finding matter to the stated audience?

4

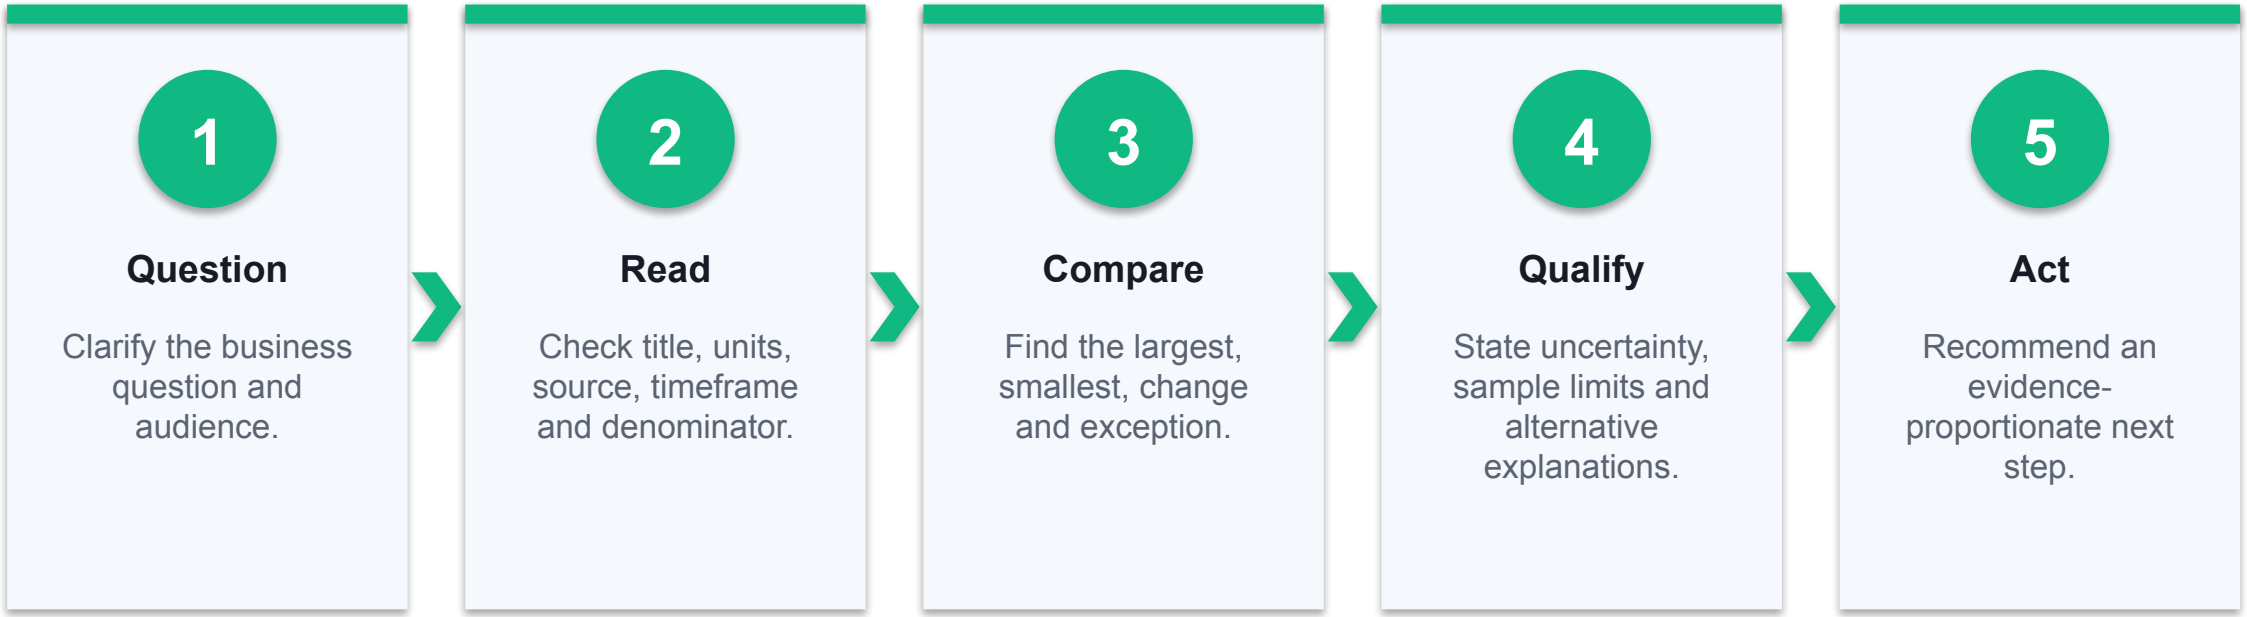

Action

What proportionate next step is supported by the evidence?

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

From Visual Pattern to Decision

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · COMPARE

Pattern vs Unsupported Story

Defensible

- Repeat customers rate delivery 8 points higher
- The result applies to this sample and period
- Test delivery messaging in the next campaign

Overclaim

- Delivery causes loyalty
- All customers prefer delivery
- Shift the entire budget immediately

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · SUPPORTING DATA

Northstar Retail Customer Pulse

1. **78%** Overall satisfaction
2. **86%** Repeat-customer satisfaction
3. **69%** First-time-customer satisfaction
4. **+11 pts** Mobile-app users vs non-users
5. **420** Survey responses
6. **Q2 2026** Synthetic reporting period

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

A chart answers a question only when context travels with it

REAL-WORLD EXAMPLE

Northstar Retail Singapore

The satisfaction gap is useful for targeting a follow-up test, but the survey does not prove that the mobile app caused higher satisfaction.

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · ACTIVITY 1

Decode a Customer Survey Infographic

CASE STUDY

THE SITUATION

Northstar Retail's marketing lead has a one-page customer survey infographic built from 420 synthetic Q2 responses. Leadership wants to know which customer experience deserves further investigation.

Use the supplied CSV, workbook and sample deck to separate observations from interpretations and recommend one next step without overstating the evidence.

You'll produce: An annotated insight slide plus a one-sentence recommendation

Duration: 35 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · ACTIVITY 1

Decode a Customer Survey Infographic

DISCUSSION & DECISION PROMPTS

1. What is the strongest visible pattern?
2. Which denominator or segment could change the interpretation?
3. What can be said confidently, and what cannot?
4. What business action is proportionate to the evidence?

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T1 · ACTIVITY 1

Decode a Customer Survey Infographic

REFLECT & DISCUSS

- Did the insight include context and uncertainty?
- Could the action be traced directly to the visual evidence?

✓ Facilitator debrief check

The final insight clearly separates what the data shows, what it may mean, why it matters and what should happen next.

© 2026 Tertiary Infotech Academy Pte Ltd

T2

LO1 · LU1 · T2

an audience-led infographic plan

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2

What is an audience-led infographic plan?

1

Objective

The audience, question, decision and desired action.

2

Content

Only evidence that earns a place in the visual story.

3

Structure

Timeline, process, comparison, statistical, hierarchy or hybrid.

4

Wireframe

A low-fidelity map of title, sections, visuals, labels and flow.

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Plan Before Styling

1

Define

Write the objective and audience question.

2

Curate

Select accurate, relevant, high-impact content.

3

Choose

Match the infographic type to the relationship.

4

Sequence

Order message, evidence and action.

5

Sketch

Build the wireframe with boxes, arrows and placeholders.

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · COMPARE

Format Choice by Question

Question	Useful form
What happened over time?	Timeline / chronology
How does the service work?	Process / instructional
Which option performs better?	Comparison / statistical
How are categories related?	Hierarchy / mind map

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Wireframe Anatomy

1. **Hook**
   Title states the audience-relevant message.
2. **Context**
   Source, timeframe, unit and scope.
3. **Evidence**
   One primary chart or process carries the proof.
4. **Guidance**
   Arrows, order and whitespace control the reading path.
5. **Action**
   A concise implication or next step.
6. **Footer**
   Source, owner, date and accessibility notes.

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · ACTIVITY 2

Plan the Infographic Brief and Wireframe

CASE STUDY

THE SITUATION

Northstar plans a sustainable-delivery campaign. The communication manager needs a portrait infographic showing the customer journey from order to low-emission delivery.

Create a wireframe that can later be built manually, from a Microsoft infographic template or with AI assistance without changing the approved message.

You'll produce: A portrait infographic brief and low-fidelity PowerPoint wireframe

Duration: 35 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · ACTIVITY 2

Plan the Infographic Brief and Wireframe

DISCUSSION & DECISION PROMPTS

1. What is the single audience question?
2. Which infographic type best reveals the relationship?
3. What content should be removed?
4. Where should the reader's eye land first, second and last?

© 2026 Tertiary Infotech Academy Pte Ltd

LO1 · LU1 · T2 · ACTIVITY 2

Plan the Infographic Brief and Wireframe

REFLECT & DISCUSS

- Could the wireframe be understood without colour?
- Does every placeholder have a message role?

✓ Facilitator debrief check

The wireframe communicates objective, hierarchy, evidence, flow, action and source space before visual styling begins.

© 2026 Tertiary Infotech Academy Pte Ltd

LU1 RECAP

Recap — Introduction to Infographics

1

Decode a Customer Survey Infographic

You can now: extract defensible insights from a statistical infographic and connect them to a business action.

2

Plan the Infographic Brief and Wireframe

You can now: select an infographic type and build a low-fidelity wireframe from an audience question and curated evidence.

© 2026 Tertiary Infotech Academy Pte Ltd

LU1 · WHY IT MATTERS

An infographic is an argument made visible.

Start with the audience question, the evidence and the intended decision.

© 2026 Tertiary Infotech Academy Pte Ltd

LU2

LU2

Create Infographics in PowerPoint

Slide size · Grid · Shapes · Icons · Type · Colour · SmartArt · Charts · AI

© 2026 Tertiary Infotech Academy Pte Ltd

Key Concepts — Create Infographics in PowerPoint

1. Visual hierarchy uses scale, position, contrast, spacing and alignment to guide the reader through one intended path.

2. PowerPoint supports editable shapes, icons, SmartArt, stock images, text, native charts and Excel-linked data.

3. Microsoft's infographic maker adds portrait templates and collaboration; Copilot can suggest structure, layouts and AI images.

4. Every AI-assisted output needs source verification, privacy review, brand control, accessibility checks and editable hand-off.

© 2026 Tertiary Infotech Academy Pte Ltd

LU2 · NATIVE CAPABILITY

PowerPoint's Editable Infographic Toolkit

Use the simplest editable object that communicates the relationship.

Layout

Slide size, guides, gridlines, alignment, distribute, group and Selection Pane.

Visual components

Shapes, connectors, icons, stock images, text boxes and merged shapes.

Structured diagrams

SmartArt lists, cycles, processes, hierarchies and timelines.

Data visualisation

Native charts, embedded workbooks and Excel-linked data.

Delivery

Animations, transitions, comments, co-authoring and presenter-friendly export.

© 2026 Tertiary Infotech Academy Pte Ltd

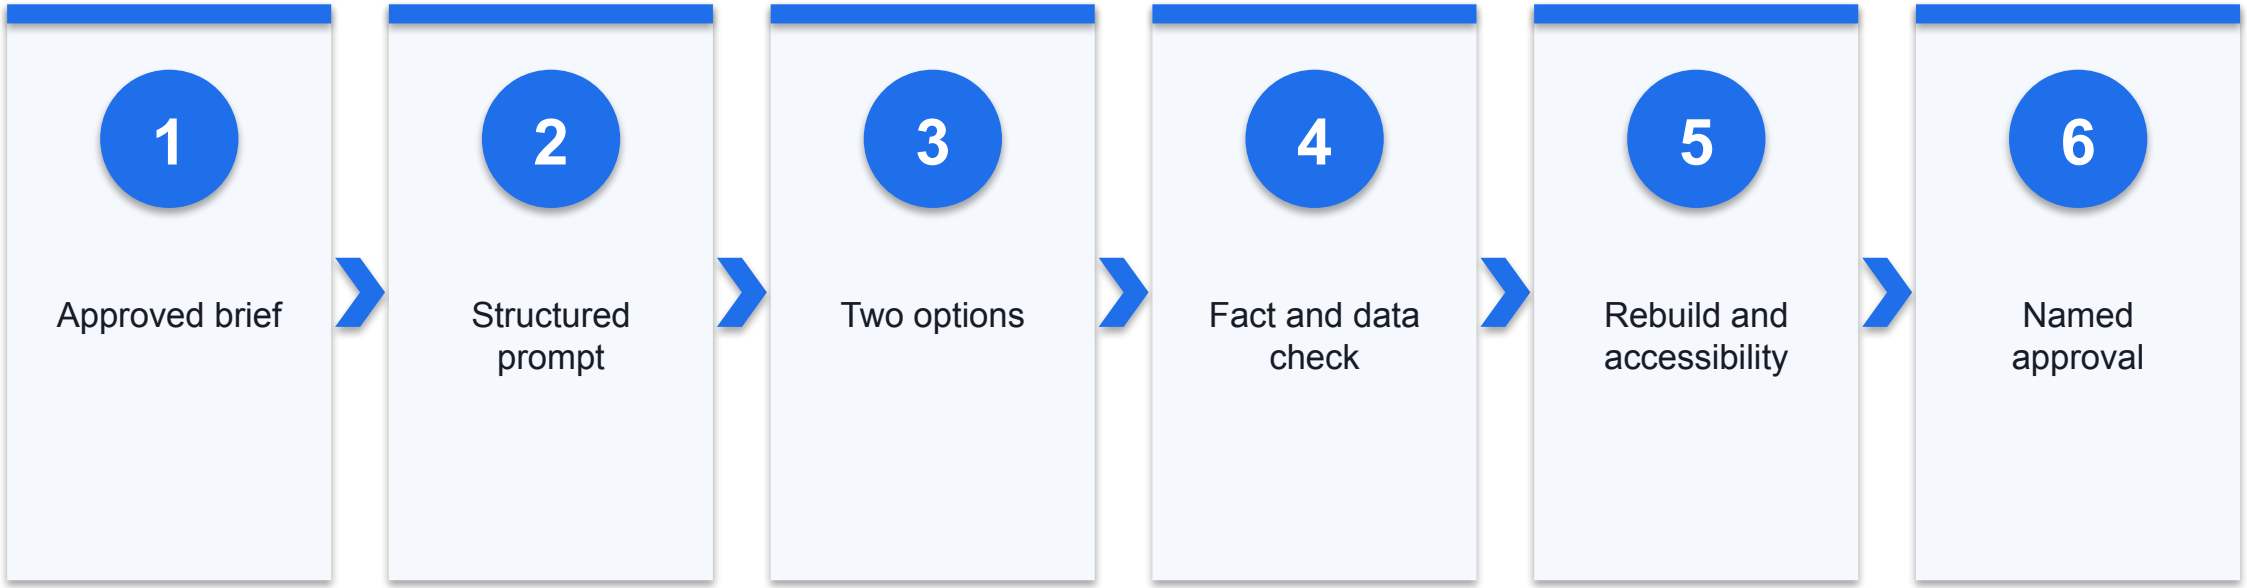

Infographic Maker and AI Designer: Use the Right Assist

Microsoft's current pages describe complementary template and Copilot workflows.

	Useful assistance	Human responsibility
Infographic maker	Templates for timelines, flowcharts, roadmaps, organisation charts and posters	Choose by relationship; replace every placeholder and retain source context
PowerPoint library	Icons, stock images, shapes, fonts, SmartArt and charts	Apply hierarchy, brand, accessibility and evidence standards
Copilot generation	Suggest section titles, layouts, summaries and supporting AI images	Verify every claim and rebuild decision-critical evidence as native objects
AI Designer	Generate or improve slide layouts and image placement	Compare options; preserve editability and maintain the approved master
Collaboration	Comments, mentions and real-time editing	Control ownership, versions, reviewers and release status
Export	PPTX, PDF, JPG, slideshow and print	Test each channel for clipping, fonts, links and accessibility

© 2026 Tertiary Infotech Academy Pte Ltd

Human-in-the-Loop AI Workflow

AI can propose an infographic; it cannot own the truth, the data rights or the business decision.

© 2026 Tertiary Infotech Academy Pte Ltd

Editable PowerPoint Production Swimlane

Source: course workflow synthesis

Decision-critical charts, labels and sources stay editable and traceable.

© 2026 Tertiary Infotech Academy Pte Ltd

A Native Chart Is Part of the Evidence Chain

DATA

CSV and workbook retain definitions and formulas

CHART

Native PowerPoint object keeps labels and values editable

TITLE

Action title states the supported insight

CONTEXT

Source, period, unit and limitation travel with the chart

UPDATE

A changed input can refresh the visual

OWNER

A named person verifies and releases the final slide

Screenshots break the update path and hide the calculation trail.

© 2026 Tertiary Infotech Academy Pte Ltd

T1

LO2 · LU2 · T1

a template adapted to the message, not the other way around

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1

What is a template adapted to the message, not the other way around?

1

Template fit

Choose a timeline, flowchart, roadmap, poster or comparison that matches the question.

2

Editable system

Retain shapes, SmartArt, text, charts and brand elements as editable objects.

3

Brand control

Apply an approved palette, type hierarchy, logo and background deliberately.

4

Evidence control

Replace every placeholder with verified data and source context.

Source: Microsoft PowerPoint Infographic Maker, accessed 15 August 2026

© 2026 Tertiary Infotech Academy Pte Ltd

Template-to-Infographic Workflow

1

Select

Choose a template by relationship and output format.

2

Audit

Identify all placeholders and inherited decorative elements.

3

Replace

Insert the approved message, data and visuals.

4

Align

Apply brand, grid, hierarchy and accessibility.

5

Export

Test PPTX, PDF and image output.

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1 · COMPARE

Template Decoration vs Message Adaptation

Decoration-led

- Keep every template section
- Choose colours first
- Paste data into available boxes
- Flatten the final slide

Message-led

- Remove any section that does not earn space
- Use the approved hierarchy and brand
- Choose the chart or shape for the relationship
- Retain an editable master

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Template Audit Checklist

1. **Purpose**
   Does the layout answer the audience question?
2. **Content**
   Are all placeholders replaced and all claims verified?
3. **Hierarchy**
   Is the reading order obvious at thumbnail size?
4. **Brand**
   Are palette, type, logo and tone approved?
5. **Access**
   Are contrast, labels and alt text adequate?
6. **Output**
   Do PPTX, PDF and JPG render as intended?

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1 · ACTIVITY 3

Build from Microsoft Infographic Maker

CASE STUDY

THE SITUATION

Northstar wants a vertical five-stage sustainable-delivery journey for an employee town hall and social post.

Start from a Microsoft infographic-maker template or the supplied editable sample. Adapt it to the approved wireframe; do not let inherited placeholders define the story.

You'll produce: An editable portrait template-based infographic in PPTX, PDF and JPG

Duration: 40 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1 · ACTIVITY 3

Build from Microsoft Infographic Maker

DISCUSSION & DECISION PROMPTS

1. Why does this template fit the question?
2. Which inherited element should be removed first?
3. What must remain editable?
4. Which export format fits each channel?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T1 · ACTIVITY 3

Build from Microsoft Infographic Maker

REFLECT & DISCUSS

- Did the result still match the approved wireframe?
- Can another team member update the data without rebuilding the design?

✓ Facilitator debrief check

The final template-based infographic is message-led, branded, accessible, source-labelled and fully editable.

© 2026 Tertiary Infotech Academy Pte Ltd

T2

LO2 · LU2 · T2

a reusable visual grammar for process information

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2

What is a reusable visual grammar for process information?

1

Grid

Guides, margins, equal spacing and alignment create an invisible structure.

2

Shapes

Consistent containers and connectors reveal stages and relationships.

3

Icons

Simple labelled symbols support recognition but never replace meaning.

4

SmartArt

Useful for lists, cycles, hierarchies and timelines when the structure fits.

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Construct the Visual Grammar

1

Grid

Set guides, margins and safe areas.

2

Shapes

Create one stage component and duplicate it.

3

Icons

Insert one consistent icon family.

4

Labels

Use short headings and direct explanations.

5

Align

Distribute, group and test the reading path.

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2 · COMPARE

Consistent System vs Mixed Decoration

System

- One shape family
- One icon style
- Direct labels
- Consistent connectors

Noise

- Mixed corner styles
- Unrelated icon packs
- Icons with no labels
- Arrow characters inside paragraphs

LO2 · LU2 · T2 · ACTIVITY 4

Create a Shape, Icon and SmartArt System

CASE STUDY

THE SITUATION

Northstar needs an editable five-stage process infographic for store managers. The current draft mixes icons, connector styles and uneven spacing.

Rebuild the process with a reusable stage component, PowerPoint alignment tools and a consistent icon/SmartArt choice.

You'll produce: A five-stage process infographic and reusable component library slide

Duration: 35 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2 · ACTIVITY 4

Create a Shape, Icon and SmartArt System

DISCUSSION & DECISION PROMPTS

1. Which visual property signals sequence?
2. Where is direct labelling still required?
3. Would SmartArt clarify or constrain this design?
4. How will the system remain reusable?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T2 · ACTIVITY 4

Create a Shape, Icon and SmartArt System

REFLECT & DISCUSS

- Can the process be scanned left to right in five seconds?
- Are all objects aligned, grouped and editable?

✓ Facilitator debrief check

The process uses a consistent component system, real connectors, direct labels, purposeful whitespace and editable PowerPoint objects.

© 2026 Tertiary Infotech Academy Pte Ltd

T3

LO2 · LU2 · T3

an editable chart that makes the decision visible

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3

What is an editable chart that makes the decision visible?

1

Metric fit

Select values that answer the business question and use consistent denominators.

2

Chart fit

Bar for comparison, line for time, scatter for relationship, composition only when part-to-whole matters.

3

Data integrity

Preserve units, timeframe, source and calculation logic.

4

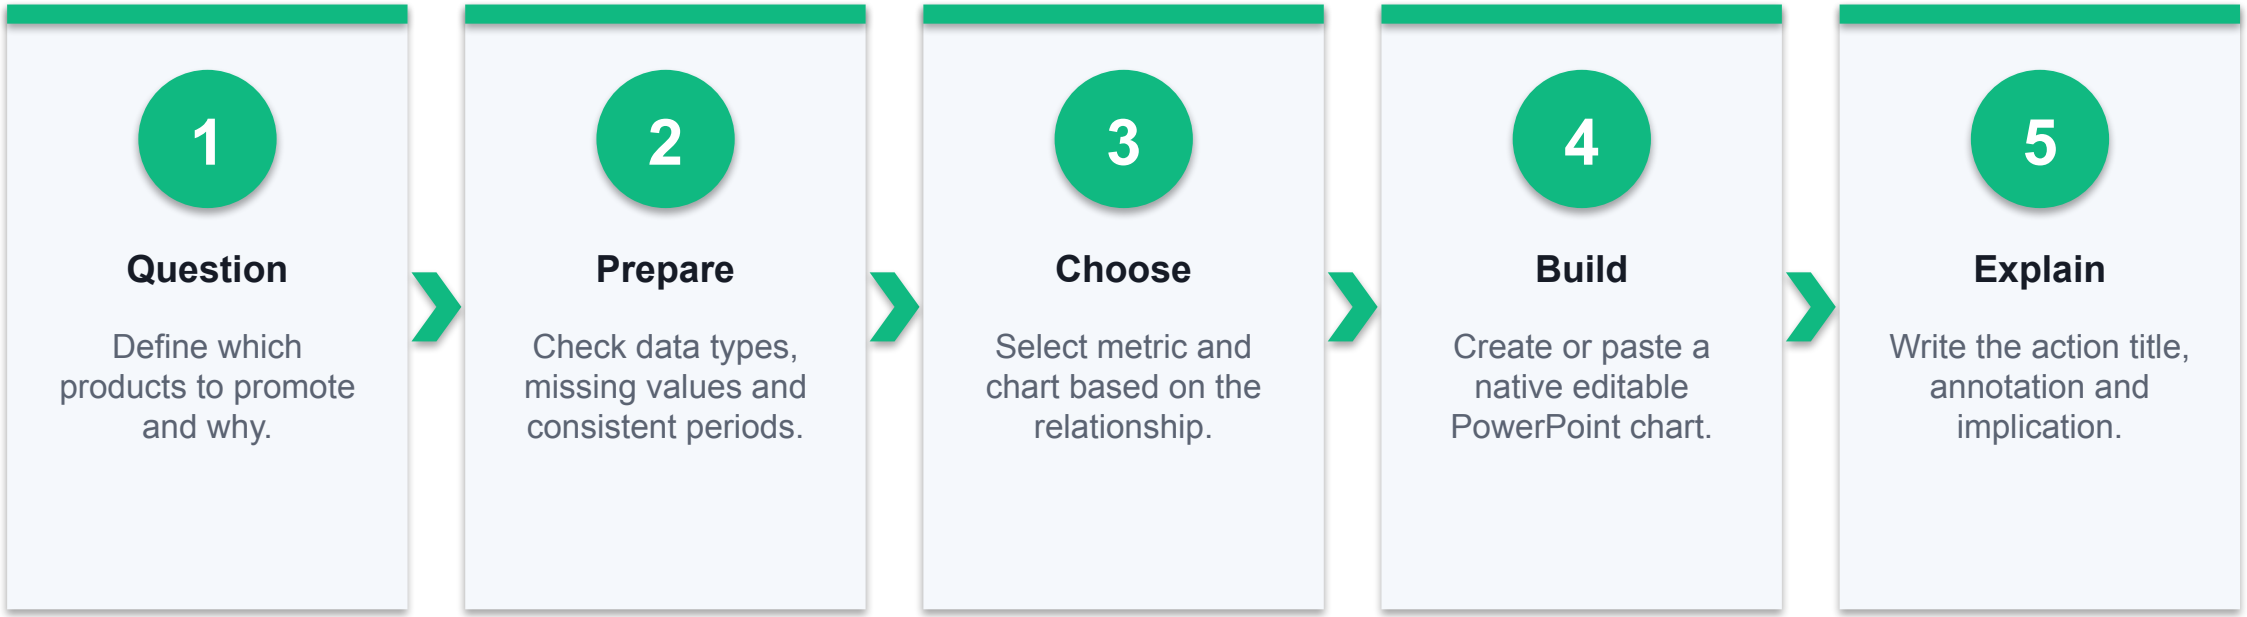

Annotation

Use an action title, direct labels and one purposeful accent to reveal the takeaway.

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Data-to-Decision Chart

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · COMPARE

Default Chart vs Decision Visual

Default

- Generic chart title
- Legend far from data
- Rainbow series
- No source or timeframe

Decision-ready

- Action title states the insight
- Direct labels
- One accent highlights the decision
- Source, period and unit are visible

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · SUPPORTING DATA

Product Promotion Signals

1. **Beverages**
   Highest revenue; stable margin
2. **Ready meals**
   Fastest Q2 growth; above-floor margin
3. **Snacks**
   High volume; lower margin
4. **Household**
   Seasonal spike; higher returns
5. **Metric**
   Revenue + growth + margin, not volume alone
6. **Action**
   Test Ready Meals as the campaign hero

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · ACTIVITY 5

Transform Excel Data into a Native PowerPoint Story

CASE STUDY

THE SITUATION

Northstar's marketing team must choose one product family for the next promotion. The supplied workbook contains monthly revenue, units, margin and returns for four categories.

Create an editable PowerPoint chart that combines the right metric with an explicit decision implication. Do not paste a screenshot-only chart.

You'll produce: A native editable PowerPoint chart plus an annotated decision slide

Duration: 45 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · ACTIVITY 5

Transform Excel Data into a Native PowerPoint Story

DISCUSSION & DECISION PROMPTS

1. Which metric answers the actual business question?
2. What does the chart show that a table does not?
3. Which context or caveat belongs on the slide?
4. Which product should be tested and why?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T3 · ACTIVITY 5

Transform Excel Data into a Native PowerPoint Story

REFLECT & DISCUSS

- Can the chart be updated from the workbook?
- Does the title state the conclusion rather than the topic?

✓ Facilitator debrief check

The chart is native/editable, uses an appropriate form, retains source context and makes a proportionate product-promotion recommendation.

© 2026 Tertiary Infotech Academy Pte Ltd

T4

LO2 · LU2 · T4

an AI first draft converted into accountable PowerPoint evidence

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4

What is an AI first draft converted into accountable PowerPoint evidence?

1

Structured prompt

Provide audience, objective, approved data, infographic type, hierarchy, brand and output constraints.

2

Multiple options

Generate alternatives and compare them against one consistent brief.

3

Human review

Verify facts, data, privacy, copyright, accessibility, brand and editability.

4

Controlled release

Retain the final owner, source record, prompt log and editable master.

Source: Microsoft AI Presentation Designer and Infographic Maker, accessed 15 August 2026

© 2026 Tertiary Infotech Academy Pte Ltd

Prompt, Generate, Verify, Rebuild

1

Prompt

Specify role, audience, purpose, data and constraints.

2

Generate

Request two visual directions or a single-slide concept.

3

Verify

Check every claim, number and generated image.

4

Rebuild

Replace weak layouts with editable native objects.

5

Approve

Record source, prompt, human changes and final owner.

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · COMPARE

AI Suggestion vs Approved Infographic

AI first draft

- May invent labels or simplify context
- May use generic imagery
- May flatten critical evidence
- May ignore brand and accessibility

Human-approved

- Verified against the source workbook
- Purposeful, licensed or generated visual
- Editable chart and text
- Approved brand, contrast, labels and alt text

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · SUPPORTING DATA

AI Review Gate

1. **Truth**
   Every fact and number matches the approved source.

2. **Privacy**
   No personal or restricted data enters an unapproved service.

3. **Rights**
   Images, icons, fonts and templates are permitted.

4. **Access**
   Reading order, contrast, labels and alt text are checked.

5. **Brand**
   The approved master, voice and assets are applied.

6. **Owner**
   A named human approves and remains accountable.

Source: illustrative synthetic data

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · ACTIVITY 6

Generate and Refine an AI-Assisted Infographic

CASE STUDY

THE SITUATION

Northstar wants an executive one-slide infographic summarising the sustainable-delivery pilot. Copilot or AI Designer may generate a layout, section titles and supporting image ideas from the approved source pack.

Generate two options, compare them, then rebuild the selected direction into an editable, verified and accessible PowerPoint slide.

You'll produce: Two AI layout options, one reviewed final infographic and a prompt/source log

Duration: 45 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · ACTIVITY 6

Generate and Refine an AI-Assisted Infographic

DISCUSSION & DECISION PROMPTS

1. What must the prompt include to prevent a generic output?
2. Which data cannot be sent to an unapproved service?
3. What must be rebuilt as native PowerPoint objects?
4. Who signs off the final infographic?

© 2026 Tertiary Infotech Academy Pte Ltd

LO2 · LU2 · T4 · ACTIVITY 6

Generate and Refine an AI-Assisted Infographic

REFLECT & DISCUSS

- Did AI accelerate options without becoming the source of truth?
- Is the final result independently editable and auditable?

✓ Facilitator debrief check

The final slide records the prompt, sources and human changes; all claims are verified and the decision evidence remains editable.

LU2 RECAP

Recap — Create Infographics in PowerPoint

1

Build from Microsoft Infographic Maker

You can now: adapt a Microsoft infographic template while preserving hierarchy, editability, brand and evidence.

2

Create a Shape, Icon and SmartArt System

You can now: build an editable process infographic using alignment, consistent shapes, icons, type and SmartArt.

3

Transform Excel Data into a Native PowerPoint Story

You can now: select metrics, create a native editable chart and annotate the decision insight with source context.

4

Generate and Refine an AI-Assisted Infographic

You can now: use Copilot or AI Designer to generate options and apply a human review gate before release.

© 2026 Tertiary Infotech Academy Pte Ltd

LU2 · WHY IT MATTERS

The fastest workflow keeps the message editable.

Use templates and AI for options; keep data, charts, labels and decisions under human control.

LU3

Review Infographics

Story · Context · Simplicity · Coaching · Budget · Effectiveness · Improvement

© 2026 Tertiary Infotech Academy Pte Ltd

Key Concepts — Review Infographics

1. Effective review separates message clarity, data integrity, visual hierarchy, accessibility, audience fit and business usefulness.

2. Coaching uses specific observations, questions and criteria rather than taste-based comments such as 'make it pop'.

3. Tool investment is evaluated through capability, licence, learning, production, governance, collaboration and maintenance costs.

4. Improvement is evidence-led: gather feedback, prioritise changes, revise the controlled master and retest the intended outcome.

© 2026 Tertiary Infotech Academy Pte Ltd

LU3 · REVIEW

Six Dimensions of Infographic Effectiveness

A professional review connects design decisions to audience and business outcomes.

Clarity

The audience can state the message and action without trainer explanation.

Integrity

Data, scale, context, source and uncertainty are accurate and visible.

Hierarchy

The reading order guides attention to evidence and implication.

Accessibility

Contrast, text size, labels, alt text and non-colour cues support access.

Engagement

The visual earns attention without chart junk or decorative distraction.

Business fit

The output supports the stated decision, channel, resources and governance.

© 2026 Tertiary Infotech Academy Pte Ltd

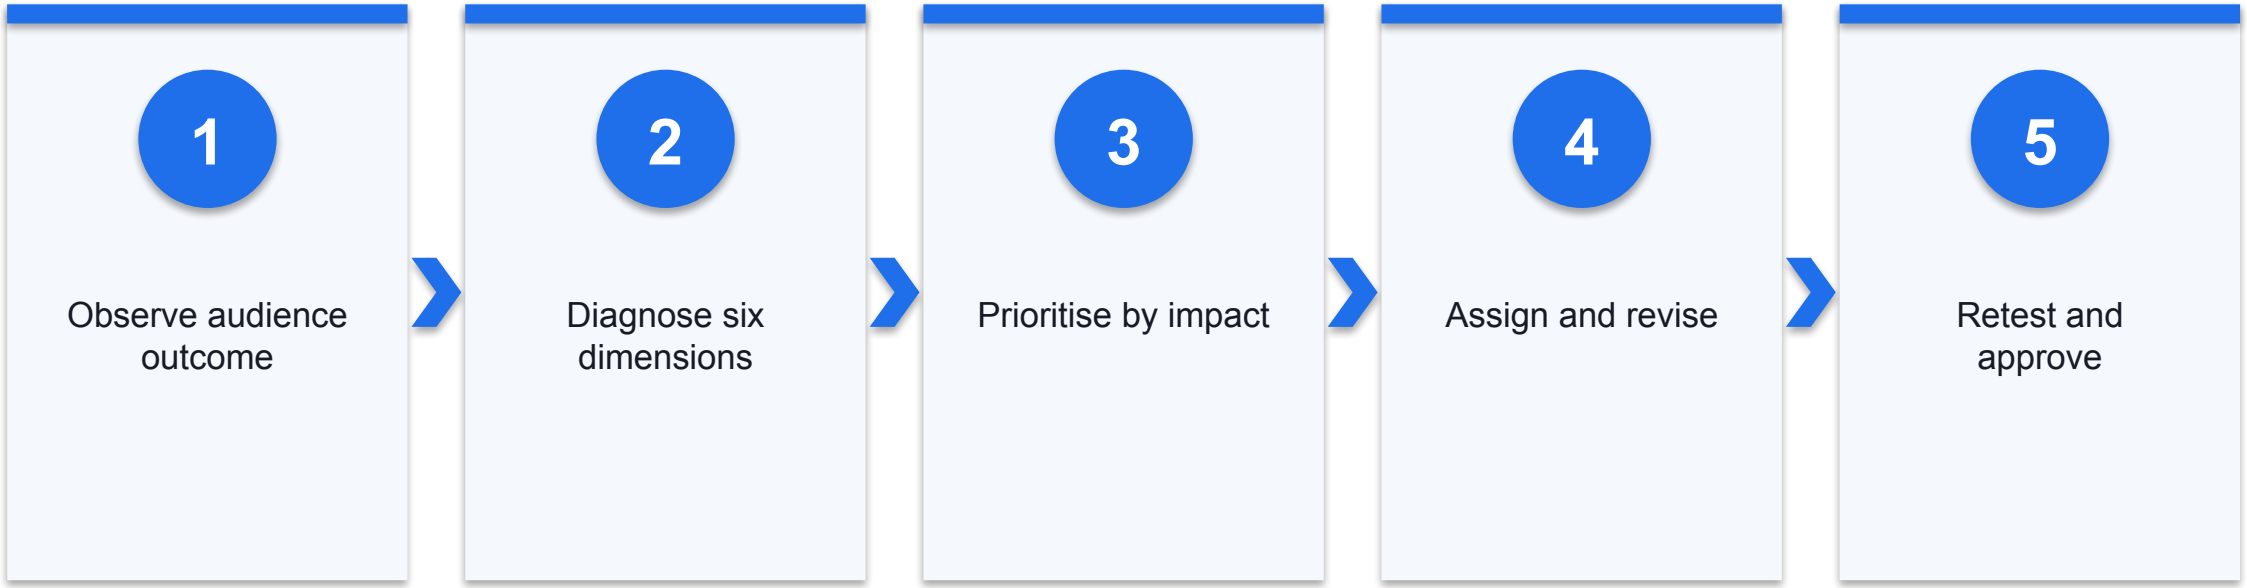

Do and Don't: Review the Story, Not Just the Style

The legacy deck's core dos and don'ts remain valid and are now tied to review criteria.

	Don't	Do
Meaning	Rely on iconography alone	Use icons with direct labels and explanatory context
Decoration	Add chart junk, 3-D effects or unnecessary elements	Keep graphical elements simple and purposeful
Context	Show a number without comparison, unit or source	Provide scale, timeframe, denominator and implication
Story	Present isolated facts in template order	Create a narrative that leads from question to evidence to action
Scope	Include every available piece of information	Curate the minimum evidence needed for the decision

© 2026 Tertiary Infotech Academy Pte Ltd

Evidence-Led Improvement Loop

A revision is complete only when the controlled master, evidence and acceptance check are updated together.

© 2026 Tertiary Infotech Academy Pte Ltd

Tool Investment: Beyond the Licence Fee

LICENCE

Subscription, add-ons and user count

LEARN

Training, templates and adoption support

BUILD

Production and collaboration time

REVIEW

Data, brand, accessibility and legal checks

MAINTAIN

Updates, asset libraries and controlled masters

REWORK

Errors, lock-in, export failures and continuity risk

The lowest monthly price may create the highest total resource cost.

coaching that turns observation into an actionable improvement

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T1

What is coaching that turns observation into an actionable improvement?

1

Observe

Describe what the reader sees or experiences without judging intent.

2

Question

Ask which audience, message, decision or constraint drove the choice.

3

Explain

Connect the issue to a principle or observed outcome.

4

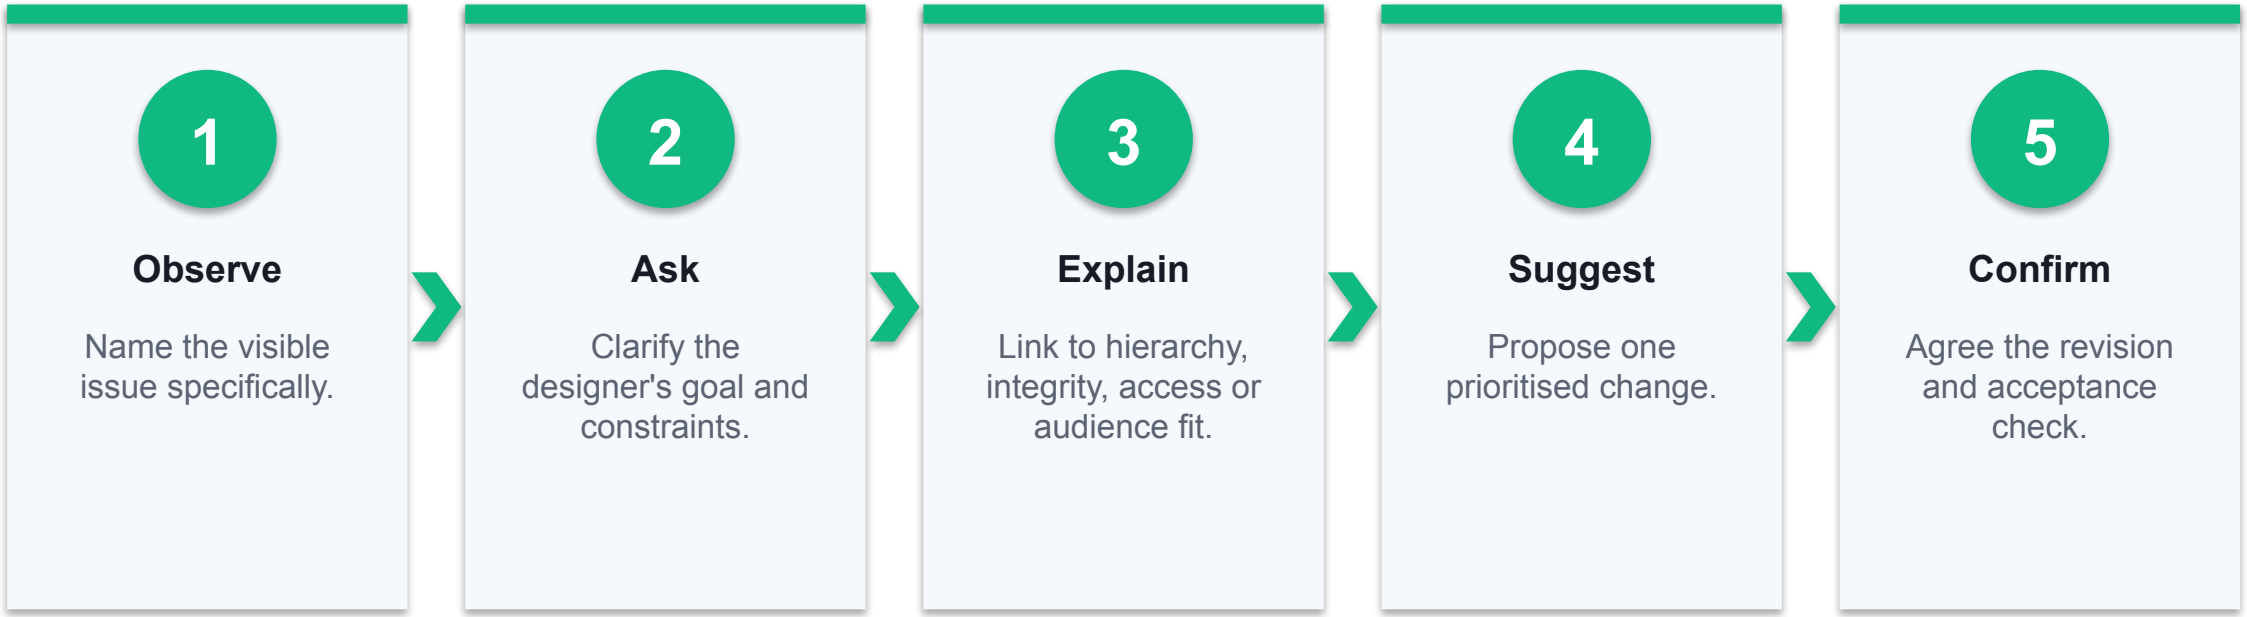

Suggest

Recommend one testable change and define what better looks like.

Observe, Ask, Explain, Suggest, Confirm

© 2026 Tertiary Infotech Academy Pte Ltd

Taste Comment vs Coaching Feedback

Taste

- Make it pop
- I don't like the colours
- Add more icons
- It feels boring

Criteria-based

- The title labels a topic but does not state the insight
- Body text falls below the agreed size
- Three icon styles disrupt the visual grammar
- The accent does not guide attention to the decision

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Review Lens

1. **Message**
   Can the audience state the takeaway?
2. **Data**
   Are claims accurate, contextualised and sourced?
3. **Hierarchy**
   Is the reading order obvious?
4. **Access**
   Are contrast, labels, text size and alt text adequate?
5. **Story**
   Do evidence and action connect logically?
6. **Fit**
   Does the output match the audience and channel?

LO3 · LU3 · T1 · ACTIVITY 7

Peer Coaching and Story Review

ROLE PLAY

THE SITUATION

Each learner presents one infographic from Activities 3–6 to two peers. The group must distinguish aesthetic preference from evidence-based review.

Capture two observations, two strengths, two improvements and one agreed revision. Then revise the master and record the change.

You'll produce: A completed peer-review log, revised infographic and short reflection

Duration: 30 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T1 · ACTIVITY 7

Peer Coaching and Story Review

ASSIGN THE ROLES

Designer

GOAL

explain the intended audience and message

Listen without defending every choice; ask for evidence.

Reviewer

GOAL

give criteria-based feedback

Use observations, questions and one prioritised suggestion.

Audience representative

GOAL

test comprehension

State what you understood, what confused you and what action you would take.

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T1 · ACTIVITY 7

Peer Coaching and Story Review

DISCUSSION & DECISION PROMPTS

1. What did the audience understand first?
2. Which issue has the greatest decision impact?
3. Which feedback is evidence-based rather than taste?
4. How will the change be tested?

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T1 · ACTIVITY 7

Peer Coaching and Story Review

REFLECT & DISCUSS

- Was the feedback specific and respectful?
- Did the revision improve the intended outcome rather than merely change the style?

✓ Facilitator debrief check

The review log contains observed evidence, a principle-based diagnosis, one prioritised change, a named owner and an acceptance check.

a tool and resource decision tied to business outcomes

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T2

What is a tool and resource decision tied to business outcomes?

1

Capability

Templates, native charts, AI generation, brand control, collaboration and export.

2

Total cost

Licence, learning, production time, governance, maintenance and rework.

3

Effectiveness

Clarity, comprehension, engagement, action, accuracy and accessibility.

4

Risk

Data handling, rights, lock-in, editability, continuity and auditability.

Source: course synthesis

© 2026 Tertiary Infotech Academy Pte Ltd

Investment Decision Loop

1. **Need**
   Define outputs, volume, users and business outcomes.
2. **Compare**
   Score capability, cost, workflow and risk.
3. **Pilot**
   Test the same brief in shortlisted workflows.
4. **Measure**
   Collect quality, time, adoption and outcome evidence.
5. **Decide**
   Recommend tools, budget, controls and review date.

LO3 · LU3 · T2 · ACTIVITY 8

Budget and Effectiveness Decision

CASE STUDY

THE SITUATION

Northstar can fund one standard workflow for 12 staff. Options include PowerPoint templates only, PowerPoint with Copilot, or a mixed workflow using external design tools plus PowerPoint for final production.

Use the supplied budget workbook and effectiveness evidence to recommend a 12-month tool, training and governance plan aligned with business outcomes.

You'll produce: A weighted tool-investment scorecard and one-page resource recommendation

Duration: 30 minutes

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T2 · ACTIVITY 8

Budget and Effectiveness Decision

DISCUSSION & DECISION PROMPTS

1. Which business outcomes define effectiveness?
2. What hidden resource costs could reverse the decision?
3. Which risks are hard gates rather than weighted preferences?
4. When should the investment be reviewed?

© 2026 Tertiary Infotech Academy Pte Ltd

LO3 · LU3 · T2 · ACTIVITY 8

Budget and Effectiveness Decision

REFLECT & DISCUSS

- Does the recommendation distinguish price from total cost?
- Are effectiveness criteria linked to observed business outcomes?

✓ Facilitator debrief check

The recommendation names the preferred workflow, budget, ownership, governance controls, success metrics and review date.

© 2026 Tertiary Infotech Academy Pte Ltd

LU3 RECAP

Recap — Review Infographics

1

Peer Coaching and Story Review

You can now: give specific criteria-based feedback and revise an infographic to improve clarity, story and accessibility.

2

Budget and Effectiveness Decision

You can now: compare infographic-tool investment options and recommend a resource plan using effectiveness and governance criteria.

© 2026 Tertiary Infotech Academy Pte Ltd

LU3 · WHY IT MATTERS

A beautiful visual can still fail the business question.

Review clarity, accuracy, accessibility, engagement, resource fit and the action the audience can take.

COURSE WRAP-UP

The CLEAR Infographic Workflow

01

Clarify

Name the audience, business question, desired action and success evidence.

02

Link

Select trustworthy data, metrics and an infographic form that reveals the relationship.

03

Edit

Build an editable PowerPoint hierarchy with purposeful type, colour, shapes, icons and charts.

04

Audit

Check accuracy, context, accessibility, AI provenance, brand fit and resource constraints.

05

Release

Export the correct PPTX, PDF or image and retain the source, review record and ownership.

Clarify the question, link the evidence, edit the visual hierarchy, audit the truth and release the right format.

© 2026 Tertiary Infotech Academy Pte Ltd

WRAP-UP

Course Summary & Next Steps

© 2026 Tertiary Infotech Academy Pte Ltd

LEARNING OUTCOMES

What You Achieved

1

Draw Insights

Converted visual patterns into contextualised, defensible recommendations.

2

Create in PowerPoint

Built editable template, shape, SmartArt, chart and AI-assisted infographics.

3

Assess Effectiveness

Used peer evidence, resource criteria and governance to improve and invest.

© 2026 Tertiary Infotech Academy Pte Ltd

WRAP-UP

Assessment

1

Written Assessment (WA-SAQ)

Nine open-ended questions — 30 minutes, open book.

2

Practical Performance (PP)

Three progressive tasks — 30 minutes, open book.

3

Open Book

Slides, Learner Guide and approved materials only.

4

Submit

On the LMS — lms-tms.tertiaryinfotech.com

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM survey — scan the QR code on the LMS
2. Assessment digital attendance — scan the SSG QR
3. Sit WA-SAQ then Practical Performance — open book
4. Submit your answers on the LMS
5. Sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

SSG DIGITAL ATTENDANCE

Digital Attendance (Mandatory)

1. It is mandatory to take the AM, PM and Assessment digital attendance for WSQ-funded courses.
2. The trainer/administrator displays the digital attendance QR code from the SSG portal.
3. Scan the QR code with your mobile phone camera and submit your attendance.
4. A minimum of 75% attendance is required to be eligible for assessment and funding.

© 2026 Tertiary Infotech Academy Pte Ltd

SEE YOU AT THE NEXT ONE

Thank You!

You are now equipped to plan, create and review decision-useful PowerPoint infographics with AI assistance and human judgement.
