Course Information

Course Title	Infographics and Data Visualization with PowerPoint
WSQ Course Reference	TGS-2024048310
TSC Reference	Infographics and Data Visualisation (TOU-DAT-4004-1.1-1)
Training Provider	Tertiary Infotech Academy Pte Ltd (UEN: 201200696W)
Duration	1 day · 9:00am–6:00pm · 8 counted hours including 1 assessment hour
Mode	Instructor-led classroom or synchronous virtual delivery with individual and small-group activities
Methods	Visual teaching, demonstration, guided practice, data interpretation, peer coaching, AI-assisted design and reflection
Equipment	PowerPoint, Excel, internet access, projector, approved Microsoft 365/Copilot access where available

Learning Outcomes

- LO1: Draw insights from infographics to make data-driven decisions.
- LO2: Leverage PowerPoint infographics for articulating data insights to stakeholders.
- LO3: Assess the effectiveness of PowerPoint infographics based on allocated resources in accordance with business goals.

Assessment

- Written Assessment (WA-SAQ) — nine open-ended questions, 30 minutes, open book.
- Practical Performance (PP) — three progressive tasks, 30 minutes, open book.
- Assessment block: 5:00pm–6:00pm.
- Grading: Competent / Not Yet Competent.
- A minimum of 75% attendance is required. Learners must be assessed as Competent and complete the required digital attendance and TRAQOM steps.

Daily Schedule

Time	Duration	Topic / Activity	Method	Slides
9:00–9:20	20 min	Welcome, digital attendance,	Briefing / visual facilitation	Slides 10–12

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

		trainer profiles, outcomes and assessment briefing		
9:20–10:15	55 min	LU1 foundations and Activity 1 — Decode a Customer Survey Infographic	Visual teaching + demonstration	Slides 16–28
10:15–10:25	10 min	Tea break	Break	—
10:25–11:20	55 min	Activity 2 — Plan the Infographic Brief and Wireframe; planning and wireframe review	Guided activity + debrief	Slide 36
11:20–12:30	70 min	LU2 foundations and Activity 3 — Build from Microsoft Infographic Maker	Visual teaching + demonstration	Slides 41–53
12:30–1:30	60 min	Lunch break	Lunch	—
1:30–2:20	50 min	Activity 4 — Create a Shape, Icon and SmartArt System; complete Activity 3 outputs	Guided activity + debrief	Slides 53–61
2:20–2:30	10 min	Tea break	Break	—
2:30–3:30	60 min	Activity 5 — Transform Excel Data into a Native PowerPoint Story	Guided activity + debrief	Slide 69
3:30–4:15	45 min	Activity 6 — Generate and Refine an AI-Assisted Infographic	Guided activity + debrief	Slide 77
4:15–4:25	10 min	Tea break	Break	—
4:25–4:55	30 min	LU3 review,	Visual teaching	Slides 82–102

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

		Activity 7 — Peer Coaching and Story Review, and Activity 8 — Budget and Effectiveness Decision	+ demonstration	
4:55–5:00	5 min	Course wrap-up, TRAQOM and assessment readiness	Review / readiness	Slide 113
5:00–5:30	30 min	Written Assessment (WA-SAQ) — nine open-ended questions, open book	Summative assessment	Slide 13
5:30–6:00	30 min	Practical Performance (PP) — three progressive tasks, open book	Summative assessment	Slide 113

Counted training and assessment time: 480 minutes (8.0 hours); lunch is excluded.

Topic-by-Topic Facilitation Notes

LU1 — Introduction to Infographics · Slide 16

Purpose · Types · Audience · Metrics · Planning · Insight extraction

- An infographic combines concise text, data, shapes, colour, charts and icons to reveal information and relationships.
- Chronology, timeline, process, comparison, statistical, mind-map, numerical and hierarchical formats answer different questions.
- Planning moves from objective and audience to content curation, metric selection, structure and a low-fidelity wireframe.
- Insight extraction distinguishes what the chart shows, what it means, why it matters and what action is justified.

Activity 1 — Decode a Customer Survey Infographic · Slide 28

Objective: extract defensible insights from a statistical infographic and connect them to a business action.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Method: Case study / guided workshop · Duration: 35 minutes · Output: An annotated insight slide plus a one-sentence recommendation.

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

Activity 2 — Plan the Infographic Brief and Wireframe · Slide 36

Objective: select an infographic type and build a low-fidelity wireframe from an audience question and curated evidence.

Method: Case study / guided workshop · Duration: 35 minutes · Output: A portrait infographic brief and low-fidelity PowerPoint wireframe.

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

LU2 — Create Infographics in PowerPoint · Slide 41

Slide size · Grid · Shapes · Icons · Type · Colour · SmartArt · Charts · AI

- Visual hierarchy uses scale, position, contrast, spacing and alignment to guide the reader through one intended path.
- PowerPoint supports editable shapes, icons, SmartArt, stock images, text, native charts and Excel-linked data.
- Microsoft's infographic maker adds portrait templates and collaboration; Copilot can suggest structure, layouts and AI images.
- Every AI-assisted output needs source verification, privacy review, brand control, accessibility checks and editable hand-off.

Activity 3 — Build from Microsoft Infographic Maker · Slide 53

Objective: adapt a Microsoft infographic template while preserving hierarchy, editability, brand and evidence.

Method: Case study / guided workshop · Duration: 40 minutes · Output: An editable portrait template-based infographic in PPTX, PDF and JPG.

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

Activity 4 — Create a Shape, Icon and SmartArt System · Slide 61

Objective: build an editable process infographic using alignment, consistent shapes, icons, type and SmartArt.

Method: Case study / guided workshop · Duration: 35 minutes · Output: A five-stage process infographic and reusable component library slide.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

Activity 5 — Transform Excel Data into a Native PowerPoint Story · Slide 69

Objective: select metrics, create a native editable chart and annotate the decision insight with source context.

Method: Case study / guided workshop · Duration: 45 minutes · Output: A native editable PowerPoint chart plus an annotated decision slide.

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

Activity 6 — Generate and Refine an AI-Assisted Infographic · Slide 77

Objective: use Copilot or AI Designer to generate options and apply a human review gate before release.

Method: Case study / guided workshop · Duration: 45 minutes · Output: Two AI layout options, one reviewed final infographic and a prompt/source log.

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

LU3 — Review Infographics · Slide 82

Story · Context · Simplicity · Coaching · Budget · Effectiveness · Improvement

- Effective review separates message clarity, data integrity, visual hierarchy, accessibility, audience fit and business usefulness.
- Coaching uses specific observations, questions and criteria rather than taste-based comments such as 'make it pop'.
- Tool investment is evaluated through capability, licence, learning, production, governance, collaboration and maintenance costs.
- Improvement is evidence-led: gather feedback, prioritise changes, revise the controlled master and retest the intended outcome.

Activity 7 — Peer Coaching and Story Review · Slide 93

Objective: give specific criteria-based feedback and revise an infographic to improve clarity, story and accessibility.

Method: Role play · Duration: 30 minutes · Output: A completed peer-review log, revised infographic and short reflection.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

Activity 8 — Budget and Effectiveness Decision · Slide 102

Objective: compare infographic-tool investment options and recommend a resource plan using effectiveness and governance criteria.

Method: Case study / guided workshop · Duration: 30 minutes · Output: A weighted tool-investment scorecard and one-page resource recommendation.

Facilitation: teach the theory and visual examples first. Introduce the scenario from the deck; learners follow the detailed procedure in the Learner Guide and self-contained activity folder. Debrief against the acceptance check, not personal taste.

Resources and Trainer Preparation

- Open the final PPTX and backup PDF; verify links, transitions, presenter display and current version.
- Confirm every Activity-01 to Activity-08 folder contains instructions, checklist, CSV, XLSX and PPTX assets.
- Verify workbook formulas and native chart behaviour before class; retain the synthetic-data source note.
- Confirm which Microsoft infographic-maker and Copilot features are available for the approved learner accounts; provide the supplied editable fallback.
- Prepare SSG digital-attendance and TRAQOM access. Keep assessment answer keys trainer-only and out of GitHub/LMS learner links.
